HOW TO USE

1. Before the run, open any sheet with signal. Wait for Ready for offline scans. Later scans work offline on that phone; waiting ticks send when signal returns.
2. LOCATION QR: scan for directions (Google Maps). No pin: ask on site.
3. When a job is done, scan that location's PUMP OUT or CLEAN & RESTOCK code, tap Complete (the phone records the time), then Save & close. It only ticks that location. Refilled is a tick of its own and does not count in the %.
4. The phone shows each job, area and overall progress. Wait for Saved before treating a tap as received; Waiting ticks are still on this phone.
5. A service day runs 08:00 to 08:00 (Gold Coast time); the phone picks the day.

HOW TO USE

1. Before the run, open any sheet with signal. Wait for Ready for offline scans. Later scans work offline on that phone; waiting ticks send when signal returns.
2. LOCATION QR: scan for directions (Google Maps). No pin: ask on site.
3. When a job is done, scan that location's PUMP OUT or CLEAN & RESTOCK code, tap Complete (the phone records the time), then Save & close. It only ticks that location. Refilled is a tick of its own and does not count in the %.
4. The phone shows each job, area and overall progress. Wait for Saved before treating a tap as received; Waiting ticks are still on this phone.
5. A service day runs 08:00 to 08:00 (Gold Coast time); the phone picks the day.

WHEN THE JOBS ARE DONE

1. Do tonight's jobs (the dots above).
2. Scan the PUMP OUT or CLEAN & RESTOCK code for the job you did. It opens WC100 only.
3. Tap Complete on each job, then Save & close. The phone keeps the time.
