Ampol Quarterly On-Hire Report - Q1 (Jan-Mar)

Ampol Lytton Refinery · Permanent Tool Store

Generated: 03 Sep 2026 18:29 | Data as at: 03 Sep 2026 15:27 (SiteIQ register pull) | Author: Andrew Fisher

KEY • **ON HIRE** issued in this window and still out • **BILLABLE** not home by quarter close is charged at replacement • **EASY FIX** hand it in and it is off the list the same day

RED

140 of the 140 items on hire from Q1 (Jan-Mar) have been out more than 90 days (**100.0%**) - above the 25% red line.

THE RULE

Share of items on hire from Q1 (Jan-Mar) out more than 90 days: Green under 10%, Amber from 10%, Red from 25% (default line - set in CONFIG).

OWNER

Andrew Fisher, Shutdown Manager

NEXT ACTION AND BY WHEN

Over-90-day list to each company's supervisor at the quarter-close run; returns or rescans reported on the next report - by **10 Sep 2026**.

THREE THINGS TO DO TODAY

1

Chase Wood for 47 items over 90 days
the largest over-90 holder in Q1 (Jan-Mar); \$8,189.95 at replacement

OWNER / BY
Andrew Fisher · by 10 Sep 2026

2

Recover AMP017/106 (Round sling - 1T x 0.5M) from John Pattel, Contract Resources
the oldest item out in Q1 (Jan-Mar): 241 days, since 05 Jan 2026

OWNER / BY
Andrew Fisher · by 10 Sep 2026

3

Chase HIS for 30 items over 90 days
the second-largest over-90 holder in Q1 (Jan-Mar); \$12,340.85 at replacement

OWNER / BY
Andrew Fisher · by 10 Sep 2026

THE POSITION. This is the Q1 (Jan-Mar) on-hire position for the Ampol tool store: **140** items issued in this window and still out. Gear not home by quarter close is billable at replacement cost; the register, company A to Z, sits behind the appendix divider.

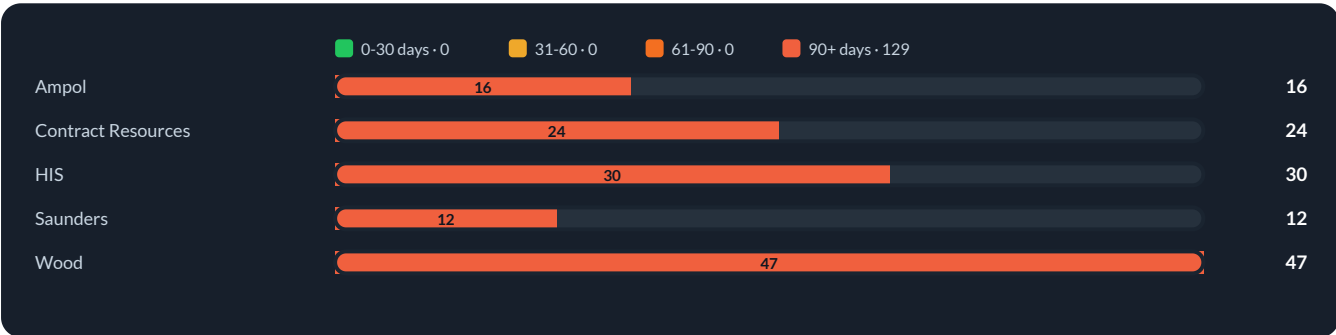

Gear on hire in this window that has not come home is billable at replacement cost at quarter close, and gear no longer needed is removed from hire at the same point - so this list is the one to walk before the quarter ticks over. Everything here is easy to fix: bring it back to the counter, it is double-scanned off your name in seconds, and it disappears from this report the same day. We are not chasing blame - we are helping everyone finish the quarter clean.

Inside the count: 1 item sit in the Repairs custody account (internal, listed last, not a customer).

Quarter close - the look forward

Every one of the **140** items on hire from Q1 (Jan-Mar) is already past 90 days at the pull (03 Sep 2026). There is nothing left to cross a quarter close; the over-90 position is this window's register itself.

On-hire ageing by company, A to Z

Each company's items on hire by days out at the pull (03 Sep 2026): 0-30, 31-60, 61-90 and over 90 days. 5 of the 12 companies, A to Z, not ranked - those with ten or more items; the 7 with fewer are listed under the chart. The legend totals are for the charted companies; the table carries every company and the full total. A row's total is the company's items in the chart above. The Repairs custody account is not a company and is not drawn.

Companies with fewer than ten items: Austrans (2), CSA (1), Enermech (1), IPS (1), Piping Solutions (3), Total Refractory Management (1), Universal Cranes (1).

COMPANY	0-30 DAYS	31-60 DAYS	61-90 DAYS	OVER 90 DAYS	ITEMS

APPENDIX

The complete register, A to Z

Everything from here is the full register for Q1 (Jan-Mar): every company A to Z, every hirer under it, every item with its start date and days out. The story - the position, the band and the ageing - is on the pages before this one.

139 items across 12 companies, then the Repairs custody account (1 item)

On hire by company, A to Z

Companies A to Z; under each company the hirers A to Z (people first, then the company's project / workflow accounts); under each hirer the longest-held item first. Hirer names are as SiteIQ records them. Where a customer has more than one SiteIQ account, the account is shown against the hirer. Days = calendar days from the on-hire date to 03 Sep 2026.

Internal custody - Repairs account (not a customer)

Items booked to the Repairs custody account are inside the on-hire count above but are Coates' own workflow - tagged, tracked and never reissued until right. They are not chased with any company.

Hoses Off Site1 item \$220.00 priced (1 item) 0 unpriced SiteIQ company: Repairs (1)

Data and method

Honest limits

- Counts come straight from the SiteIQ RENTAL_STOCK register: items On Hire whose on-hire date falls in Q1 (Jan-Mar). Radios, gas monitors, Dräger equipment, lanyards and steel coil clamps are excluded - they are reported separately. Items on hire since before 01 Jan 2026 are not in this list (see the Executive Summary and the Tooling On-Hire Report).
- Company names follow the suite's one naming rule: the site's former-name account and the refinery legal name both read Ampol; CR reads Contract Resources; FCCU and SATGAS/MOL project accounts roll up to their company and the account is shown against the hirer.
- Descriptions use the corrected name from Tooling_Description_Mapping.xlsx where one exists for the barcode, or where every mapping row for that register description agrees on one corrected name; otherwise the register description. The site's former name is shown as Ampol wherever SiteIQ still carries it.
- Three things to do today are drawn from this window's own rows: the company holding the most of its items over 90 days, the oldest item out, and the unpriced items (or the second-largest over-90 holder when everything is priced). Fewer than three true items prints fewer.
- Quarter close - the look forward is arithmetic on the SiteIQ RENTAL_STOCK on-hire dates of this window's own items: an item under 90 days out at the pull whose on-hire date is 90 days or more before the close crosses the line unless it comes back - a count, never a forecast. The window's own close is used; a close that has already passed rolls forward to the next one and the section says so. Where every item in the window is already past 90 days the section says exactly that. Replacement value as everywhere on this page; the TRANSACTIONS export is read for no figure in this report.
- Data as at: SiteIQ RENTAL_STOCK pull 03 Sep 2026 15:27; SiteIQ TRANSACTIONS pull 03 Sep 2026 13:58 (report period 01/01/2026 06:00:00 - 03/09/2026 05:59:59); SiteIQ STOCKTAKE pull 03 Sep 2026 15:28. Every figure is computed from these exports by this kit - the Excel workbook is not read for any printed number.
- Replacement value is the catalogue new-buy average (Avg Buy Price (New) in Ampol_ToolStore_Pricing.xlsx); where a description is listed more than once the first price is used. Unpriced items show a dash and are excluded from value totals - never estimated.

Our standard, honest limits and how to read this report

OUR STANDARD

Life Saving Rule 5 - Tools and Equipment (SEQ-GL-009): nothing damaged, defective or out of test date is ever reissued. Every issue and every return runs through the double scan - Two scans. Two looks. One standard. | Nothing goes on the shelf unless it is ready for hire. | Right first time. Every item. Every time. Daily stocktakes keep eyes on the fleet: nothing in the store goes over 30 days without being scanned, and anything damaged is tagged Out of Service on the spot. We are here to help - if gear is finished with, hand it back to the tool store and it comes off your list the same day.

HONEST LIMITS

Every figure on these pages is counted by this kit from the SiteIQ exports named under Data and method - never from a workbook tab or a typed-in summary. Unpriced items show a dash and never enter a total. Where a rule or a limit matters, it is written out there in plain words.

NAMES AS SHOWN

The site is Ampol on every page: where SiteIQ still carries the former name it is shown under the current one, and the Tooling On-Hire Report's data page says how many lines do. One customer, one name: project accounts roll up to their company and the SiteIQ account is shown against the hirer. Hirer names are as SiteIQ records them.

HOW TO READ THIS

Every table is A to Z unless its heading says ranked by. Days are calendar days from the on-hire date to the pull. A dash in a value column means no catalogue price - never an estimate. Anything finished with: hand it to the counter and it is off the list the same day.

THE COATES WAY • OUR OPERATING MODEL, OUR STANDARD, OUR WAY

Australia's most trusted equipment partner - delivering Best Service & Value.

PURPOSE Supporting Australia's growth with leading equipment solutions.

Care Deeply (safety & wellbeing first, always) • **Customer Focused** (listen, anticipate, exceed expectations) • **Be Our Best** (accountability, learning, determination) • **One Team** (collaborative, trusted, inclusive) • **Competitive Spirit** (set stretch goals, be THE best)

SCORECARD Green - on track • Amber - at risk • Red - action needed: a documented root cause, corrective actions, an owner and a deadline.

WHERE THIS REPORT SITS Performance-led Results, Operational Excellence, Customer Centric, Cadence • every over-90-day item has a named holder; the quarterly recovery cycle is the cadence that keeps the fleet honest

Every figure in this report is counted from the SiteIQ exports named on its data page - nothing is estimated, weighted or typed in. Wording: The Coates Way, branch edition, July 2026.
