SURFERS PARADISE STREET CIRCUIT

THANK YOU.

Fellas,

This is what you built. 20.8 kilometres of fence and crowd control around the Surfers Paradise street circuit: every panel, every foot and every clamp carried and stood up by hand, in the wind and the rain, and done right.

You finished the build. One hundred per cent, ready for race weekend. And from the public, the residents living right beside the circuit and V8 Supercars management: nothing but positive feedback.

That's how you represent a job.
