KEY • **COUNT DAILY** stock takes are done daily - no exceptions • **TWO SCANS TWO LOOKS** scanned and sighted, out and back • **2-DAY STANDARD** gas monitors, radios, radio batteries, Milwaukee tools and batteries every 2 days

AMBER

89.9% of the 4,613 in-store items were sighted inside the 30-day SOP; **466** shelf items are outside it (oldest 206 days) and **3** possible missed returns are flagged.

THE RULE

In-store items sighted inside 30 days: Green from 90%, Amber from 75%, Red below. On-hire items are rated separately (verified on return). Default lines - set in CONFIG.

OWNER

THE STORY. 8,174 countable items; **89.9%** of the shelf sighted inside the 30-day SOP and **\$2,400,789** of \$5,585,790 priced fleet verified in 30 days. The risk sits in long-hire gear, not the shelf: 1,043 on-hire items unseen for 180+ days, holding \$1,527,370.

Ampol Stocktake Compliance

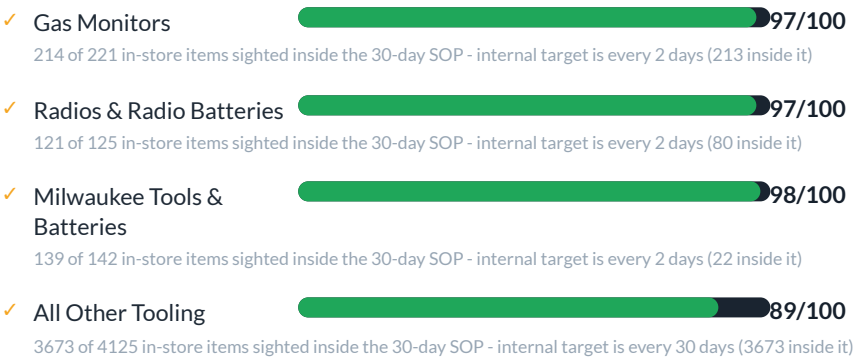

AS AT 03 SEP 2026 15:28

The scorecard - the arithmetic behind the position

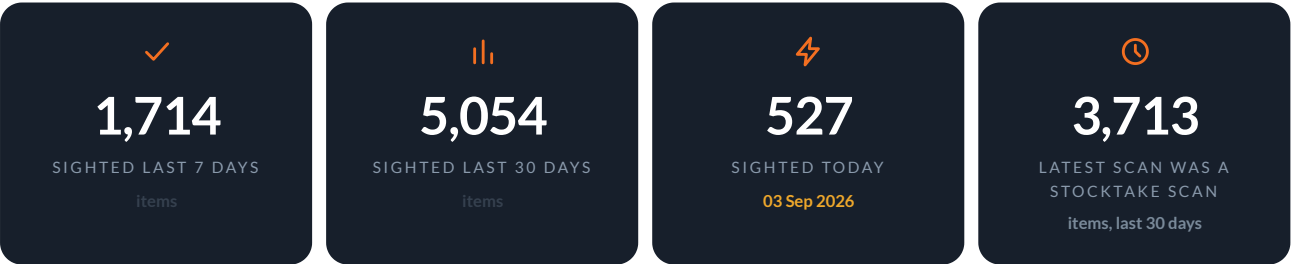

THE POSITION, IN FULL. One honest answer: is the Ampol tool store counted and under control? **8,174** countable items on the register, **61.8%** sighted inside the 30-day SOP cycle, and **\$2,400,789** of the **\$5,585,790** priced fleet verified in the last 30 days. On the shelf the position is stronger again: **89.9% of in-store items sighted inside 30 days**, with the longest-unsighted shelf item at 206 days. Every score prints its own arithmetic - it can be challenged, checked and trusted. **4,913 lines** that have departed the store (Pending Branch Receipt, or a Departure scan with the item no longer on the live register) are excluded.

30-day SOP compliance - whole store

SOP compliance = items sighted in the last 30 days ÷ countable items = 5,054 ÷ 8,174 = **61.8%**. That 5,054 is **4,147 in store + 907 on hire** (an on-hire item's sighting is its hire-out or return scan). Of the 3,120 items outside 30 days, **2,654 are on hire** and 466 are on the shelf. Tier bars are rated on in-store assets; on-hire assets are verified through the double-scan return process and shutdown checks, shown separately on the on-hire page.

Ampol Stocktake Compliance

AS AT 03 SEP 2026 15:28

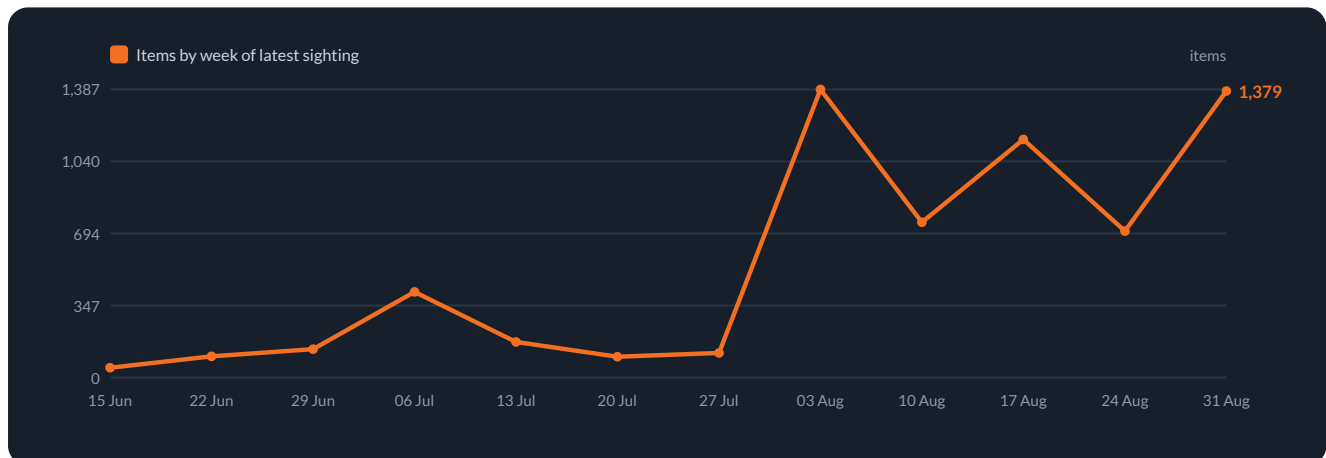

The priority determination - stated, not implied

HOW THIS STORE IS COUNTED

- **P1 • Gas Monitors - every 2 days**
Safety-critical; bumped & charged before issue; sighted every 2 days
- **P1 • Radios & Radio Batteries - every 2 days**
Safety-critical comms; high churn; sighted every 2 days
- **P2 • Milwaukee Tools & Batteries - every 2 days**
High value, high shrinkage risk; sighted every 2 days
- **P3 • All Other Tooling - every 30 days**
30-day full-coverage SOP cycle

Client compliance is measured on the 30-day SOP. The 2-day cycle for gas monitors, radios, radio batteries, Milwaukee tools and batteries is the Coates internal standard set **above** the SOP. Issue and return scans reset an item's clock, so the count cadence naturally surfaces idle stock - exactly the gear that goes missing quietly.

Register freshness - items by the week of their most recent sighting, last 12 weeks

The stocktake export holds one line per item - its latest sighting only - so this chart is **how fresh the register is**, not a count of scans performed. An item scanned twice in the window appears once, on its latest date. The weeks nearest today are naturally the tallest.

Ampol Stocktake Compliance

AS AT 03 SEP 2026 15:28

Coverage by storage bay - RAG rated

Green from 90% sighted inside 30 days, amber from 75%, red below - the same RAG discipline as every Coates report. Due counts items outside their own tier target, so a red bay tells you exactly where the trolley goes next.

STORAGE BAY (RANKED BY ITEMS)	ITEMS	SIGHTED 30D	DUE (TIER TARGET)	PRICED VALUE
E-B01	614	100%	3	\$22,293
CHARGING STATION	519	97%	51	\$511,790
RIGGING BAY	348	80%	71	\$60,923
E-B02	277	99%	4	\$19,764
E-B04	220	100%	0	\$26,739
D-B01	198	100%	0	\$12,520
F-B01	196	87%	26	\$28,985
D-B04	186	100%	0	\$21,531
D-B03	173	100%	0	\$12,414
F-B02	146	23%	112	\$9,525
A-B01	123	94%	7	\$5,105
G-B01	106	100%	0	\$92,035
L-B04	96	100%	0	\$25,673
D-B05	78	99%	1	\$5,940
B-B05	76	100%	0	\$13,105
C-B06	68	100%	0	\$32,426

Plus 55 smaller bays holding 1,189 items between them - full detail in the staff worklist. Bays are the item's home storage unit from the live register; on-hire items are excluded from bay coverage.

Ampol Stocktake Compliance

AS AT 03 SEP 2026 15:28

The store map - every bay coloured by its 30-day coverage

One look at the floor: **52 bays green**, **3 amber**, **16 red** out of 71 in-store bays. Green from 90% of the bay's items sighted inside 30 days, amber from 75%, red below - the same lines as the RAG band on page 2. Each tile prints its item count and its coverage, so the colour can be checked.

Bays are laid out **A to Z** because no floor plan has been typed in yet - rename **Data\store_layout.template.json** to **store_layout.json** and give each bay its row and column. Every bay with at least one in-store item is shown; the item count is the live register's home storage unit for in-store items, on-hire items excluded. Numbers, not colours, are the record.

Ampol Stocktake Compliance

AS AT 03 SEP 2026 15:28

The idle tail - where the risk actually sits

The risk is never the gear that moves - it is the gear that sits. On the shelf that tail is **small**: 466 of 4,613 in-store items are outside 30 days and the oldest is **206 days**. The watch item is **long-hire gear**: 1,043 on-hire items have had no scan of any kind in over 180 days, holding **\$1,527,370** of priced value - these are verified at return and at shutdown checks, and the long-hire list below is where that effort goes next.

In-store items by time since last sighting - the shelf tail

On-hire items by time since last verification - the long-hire tail

BUCKET	ITEMS ON HIRE	PRICED VALUE
0-30 days	907	\$859,323
31-60 days	669	\$700,137
61-90 days	357	\$372,320
91-180 days	585	\$473,650
Over 180 days	1,043	\$1,527,370

On-hire gear is not shelf-counted - verification comes from the double-scan return process and shutdown checks, so a long bucket here is a long hire, not a lost item. It is watched because long-idle gear is where shrinkage hides. Values from the pricing master; unpriced items excluded and disclosed, **never estimated**.

Ampol Stocktake Compliance

AS AT 03 SEP 2026 15:28

On hire - verified on return, not hunted on shelves

3,561 items show ON HIRE on the register, holding \$3,932,800 of priced value - 3,247 out with contractors and 314 on the repairs and Dräger service accounts. On-hire gear is verified through the double-scan return process and shutdown checks - chasing it around site during a count would be friction for no assurance. 3 possible missed returns (sighted in a store bay after their on-hire date) are flagged to resolve first, so hirers are never held for gear that is already home.

COMPANY (RANKED BY ITEMS ON HIRE)	ITEMS ON HIRE	NOT SCANNED 30D	PRICED VALUE
Ampol	774	636	\$852,958
Wood	715	551	\$702,797
Contract Resources	605	435	\$646,607
HIS	314	193	\$180,070
Dräger (repairs / custody)	243	221	\$486,000
Enermech	219	109	\$221,257
Saunders	152	93	\$128,168
Universal Cranes	91	70	\$105,450
Future Fuels	87	87	\$174,000
Repairs (repairs / custody)	71	50	\$85,481

Ranked by items on hire - the one ranked table on this page. Companies are merged across the register's spellings (the refinery legal name and the site's former account both read Ampol; project accounts such as FCCU and SATGAS/MOL roll into their parent). "Not scanned 30d" is an item whose latest scan of any kind is older than 30 days - a long hire, not a lost item. Top 10 of 46 accounts shown.

Movements by bay - top 12 bays, ranked by movements in the log

So what: the fast movers' bays are where a daily sighting pays most - one walk past CHARGING STATION resets the clock on the gear the counter handles every day. On the bay map: **CHARGING STATION** 519 in-store items, 97% sighted inside 30 days; **RIGGING BAY** 348 in-store items, 80% sighted inside 30 days; **I-B01** 48 in-store items, 100% sighted inside 30 days.

Bay and status: the live register at the pull (bay = home storage unit); last movement: the newest scan in the log. Counted from TRANSACTIONS (sheet CUSTOMER_CONTRACTOR_EQUIP, report period 01 Jan 2026 06:00 to 03 Sep 2026 05:59) joined to RENTAL_STOCK by barcode. The log engine's rules: short hire = closed inside 6 minutes; mass draw = 15 or more items to one person inside an hour; product key = the description less its size and serial tail.

Ampol Stocktake Compliance

The tool store has your back

TWO SCANS, TWO LOOKS

Every item is scanned **and** sighted going out, and scanned and sighted coming back. If it moved, it is on the record - that is your protection as much as ours.

COUNTED DAILY, ABOVE THE SOP

The SOP asks for a 30-day cycle. Coates sights gas monitors, radios, radio batteries, Milwaukee tools and Milwaukee batteries every **2 days** - an internal standard set above the contract.

NUMBERS YOU CAN CHALLENGE

Every score prints its own arithmetic. Values are Avg Buy Price (New) from the pricing master; serial-numbered gas monitors take their family line; anything unpriced is excluded and disclosed, **never estimated**. SiteIQ still carries the site's former name on 3,128 descriptions - shown here under the current name.

IDLE STOCK IS THE TARGET

Movement resets the clock, so the count cadence naturally hunts the gear that sits still - the gear that goes missing quietly.

LIFE SAVING RULE 5

Tools and Equipment (SEQ-GL-009): nothing damaged, defective or out of test date is ever reissued. Stock takes are done daily. No exceptions.

EASE OF DOING BUSINESS

One register, one cadence, one report - and a store team that resolves a query while you are still at the counter.

Sources: SiteIQ STOCKTAKE export (03 Sep 2026 15:28), RENTAL_STOCK register, pricing master, TRANSACTIONS (CUSTOMER_CONTRACTOR_EQUIP, 01 Jan to 03 Sep 2026; fast movers). Figures go to History\report_history.json each run. Trend page: appears once seven days are on record (2 today).

THE COATES WAY • OUR OPERATING MODEL, OUR STANDARD, OUR WAY

Australia's most trusted equipment partner - delivering Best Service & Value.

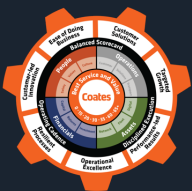

PURPOSE Supporting Australia's growth with leading equipment solutions.

Care Deeply (safety & wellbeing first, always) • **Customer Focused** (listen, anticipate, exceed expectations) • **Be Our Best** (accountability, learning, determination) • **One Team** (collaborative, trusted, inclusive) • **Competitive Spirit** (set stretch goals, be THE best)

SCORECARD Green - on track • Amber - at risk • Red - action needed: a documented root cause, corrective actions, an owner and a deadline.

WHERE THIS REPORT SITS **Resilient Processes, Operational Excellence, Cadence, Reduce Friction** • one documented count standard, walked every day; a shelf item unsighted past its cycle is a workaround flagged, not normalised

Every figure in this report is counted from the SiteIQ exports named on its data page - nothing is estimated, weighted or typed in. Wording: The Coates Way, branch edition, July 2026.
