Ampol Compliance & Trends Report

Ampol Lytton Refinery • Permanent Tool Store

Generated: 03 Sep 2026 21:33 | Data as at: 03 Sep 2026 15:27 (SiteIQ register pull) | Author: Andrew Fisher

KEY • SIGHT not through our hands in three months • CAUGHT parked out of tag by our checks • HIGH VALUE the costliest gear in the field

THE POSITION. Electrical, rigging and high-torque gear carries test and inspection dates. Anything in those families that has not been through our hands in 90 days is potentially out of test date - not a problem, just a reason for a five-minute visit to the counter. We check the tags, and if it is current it goes straight back with you. That is us doing the compliance work so your crews do not have to think about it.

Tool store activity by month (transactions)

Tool store transactions per month by SiteIQ start date, export period 01/01/2026 06:00:00 - 03/09/2026 05:59:59. Every account and family is counted (custody and radio / gas movements included); the current month is partial.

MONTH	TRANSACTIONS
Jan	9,187
Feb	10,751
Mar	12,166
Apr	10,439
May	11,137
Jun	15,350
Jul	12,427
Aug	8,466
Sep (partial)	1,098

The current month covers only the days inside the export period and is labelled partial - it is not a full month's activity.

Data and method

Honest limits

- 'Not sighted' uses the SiteIQ STOCKTAKE export (last sighted date per barcode). An item on hire cannot be sighted in store - which is exactly the point: 90+ days out means we have not had hands on it to verify tags.
- Category matching is by keywords in the register description (electrical / rigging / high torque) - anything misfiled, tell us and we correct the mapping. The corrected name is printed where one exists.
- High-value = replacement cost \$1,000.00 or more.
- The monthly activity counts every transaction in the export - customer issues and returns plus custody movements (Repairs, Dräger) and the radio / gas families the on-hire pages leave out.
- Data as at: SiteIQ RENTAL_STOCK pull 03 Sep 2026 15:27; SiteIQ TRANSACTIONS pull 03 Sep 2026 13:58 (report period 01/01/2026 06:00:00 - 03/09/2026 05:59:59); SiteIQ STOCKTAKE pull 03 Sep 2026 15:28. Every figure is computed from these exports by this kit - the Excel workbook is not read for any printed number.
- Replacement value is the catalogue new-buy average (Avg Buy Price (New) in Ampol_ToolStore_Pricing.xlsx); where a description is listed more than once the first price is used. Unpriced items show a dash and are excluded from value totals - never estimated.

Our standard, honest limits and how to read this report

OUR STANDARD

Life Saving Rule 5 - Tools and Equipment (SEQ-GL-009): nothing damaged, defective or out of test date is ever reissued. Every issue and every return runs through the double scan - Two scans. Two looks. One standard. | Nothing goes on the shelf unless it is ready for hire. | Right first time. Every item. Every time. Daily stocktakes keep eyes on the fleet: nothing in the store goes over 30 days without being scanned, and anything damaged is tagged Out of Service on the spot. We are here to help - if gear is finished with, hand it back to the tool store and it comes off your list the same day.

HONEST LIMITS

Every figure on these pages is counted by this kit from the SiteIQ exports named under Data and method - never from a workbook tab or a typed-in summary. Unpriced items show a dash and never enter a total. Where a rule or a limit matters, it is written out there in plain words.

NAMES AS SHOWN

The site is Ampol on every page: where SiteIQ still carries the former name it is shown under the current one, and the Tooling On-Hire Report's data page says how many lines do. One customer, one name: project accounts roll up to their company and the SiteIQ account is shown against the hirer. Hirer names are as SiteIQ records them.

HOW TO READ THIS

Each family lists the gear we have not had hands on for three months, oldest sighting first. Caught and parked means our own checks found it before it could go out. High-value items are ranked by replacement cost.

THE COATES WAY • OUR OPERATING MODEL, OUR STANDARD, OUR WAY

Australia's most trusted equipment partner - delivering Best Service & Value.

PURPOSE Supporting Australia's growth with leading equipment solutions.

Care Deeply (safety & wellbeing first, always) • **Customer Focused** (listen, anticipate, exceed expectations) • **Be Our Best** (accountability, learning, determination) • **One Team** (collaborative, trusted, inclusive) • **Competitive Spirit** (set stretch goals, be THE best)

SCORECARD Green - on track • Amber - at risk • Red - action needed: a documented root cause, corrective actions, an owner and a deadline.

WHERE THIS REPORT SITS Performance-led Results, Operational Excellence, Customer Centric, Cadence • every over-90-day item has a named holder; the quarterly recovery cycle is the cadence that keeps the fleet honest

Every figure in this report is counted from the SiteIQ exports named on its data page - nothing is estimated, weighted or typed in. Wording: The Coates Way, branch edition, July 2026.
