

THE DOUBLE SCAN — ISSUING

Two scans. Two looks. One standard. Nothing leaves the store that you wouldn't use yourself.

SCAN, LOOK. SCAN, LOOK.

The scan isn't complete until you've looked.
Right first time — every item, every time.

- 1

Clear the screen

Fresh screen, fresh transaction. It must read “No Hirer or Item to Display” before you start. Never scan on top of another transaction.
- 2

Scan the hirer → press Hire

Scan the hirer's barcode. Wait for it to load, then confirm **name · company · status**. Right person, right company? Press **Hire**.
- 3

Check it before you scan it

In date · undamaged · clean · batteries fully charged · gas monitors bumped. **Fails any one? It doesn't go out.** Don't scan first and check later.
