THE POSITION. The Ampol tool store position at the SiteIQ pull of 03 Sep 2026 15:27: 1,496 tooling items issued since 01 Jan 2026 are on hire. The tiles carry the figures; the quarterly recovery by company, the signals and the data page follow on the pages after.

The Ampol tool store is running the Coates Way: every issue and every return is double-scanned, and the quarterly recovery cycle keeps the fleet honest - gear not returned by quarter close is billable at replacement cost, and this report gives every company the list to beat before that happens.

Since the last pull (02 Sep 2026 18:30 to 03 Sep 2026 15:27): **17** came back, **14** went out, **2** changed hands, **10** crossed 90 days while out. In the 24 hours before the pull (02 Sep 2026 15:27 to 03 Sep 2026 15:27): **0** tooling items issued, **30** returned.

Available for hire counts tooling only: 4,607 register rows are Available for Hire in all; the other 544 are 294 Dräger gas monitors, 125 radios, 104 gas monitors, 21 lanyards, reported separately. On hire excludes 850 register rows on hire since before 01 Jan 2026 (oldest 14 Feb 2023) - all of them 760 radios, 88 Dräger gas monitors, 2 gas monitors, chased by the Radio and Gas Monitor reports; no tooling item on hire pre-dates this year. Inside the 1,496: 13 in the Repairs custody account (internal) and 82 booked to shutdown / custody accounts of a company rather than to a person. Transactions YTD counts every movement in the export: 3,739 are custody movements (Dräger 2,130, Repairs 510 and company custody accounts) and 78,976 are radio / gas / lanyard family movements the on-hire pages leave out; 8,306 are customer tooling movements. Same-day returns are measured on all 91,021.

On hire by quarter issued

QUARTER	ITEMS STILL ON HIRE
Q1 (Jan-Mar)	140
Q2 (Apr-Jun)	531
Q3 (Jul-Sep)	825 (September partial)
Q4 (Oct-Dec)	0 (quarter not started)
Total	1,496

Quarterly recovery summary, by company A to Z

20 companies A to Z plus the Repairs custody account on its own line; the TOTAL ties to the 1,496 on hire and \$525,201.50 above. Values are replacement (catalogue new-buy average); a dash means nothing priced in that cell. Project accounts (FCCU, SATGAS/MOL) roll into their company; the Tooling On-Hire Report shows the account against each hirer.

Total replacement value by company, in \$'000 - ranked by replacement value, top 12 of 20 companies; the table below is A to Z.

COMPANY	1ST QTR ITEMS	1ST QTR VALUE	2ND QTR ITEMS	2ND QTR VALUE	3RD QTR ITEMS	3RD QTR VALUE	4TH QTR ITEMS	4TH QTR VALUE	TOTAL ITEMS	TOTAL VALUE	PRICED / UNPRICED

Legacy on hire - before 01 Jan 2026 (ranked by legacy items - top 8 of 37 companies)

850 register rows are still on hire from 2023-2025 issues (oldest 14 Feb 2023). They are not in the tooling recovery cycle above because they are 760 radios, 88 Dräger gas monitors, 2 gas monitors - the Radio and Gas Monitor reports carry them. Shown here so the recovery story is complete; the full A-to-Z list by company is in the Tooling On-Hire Report.

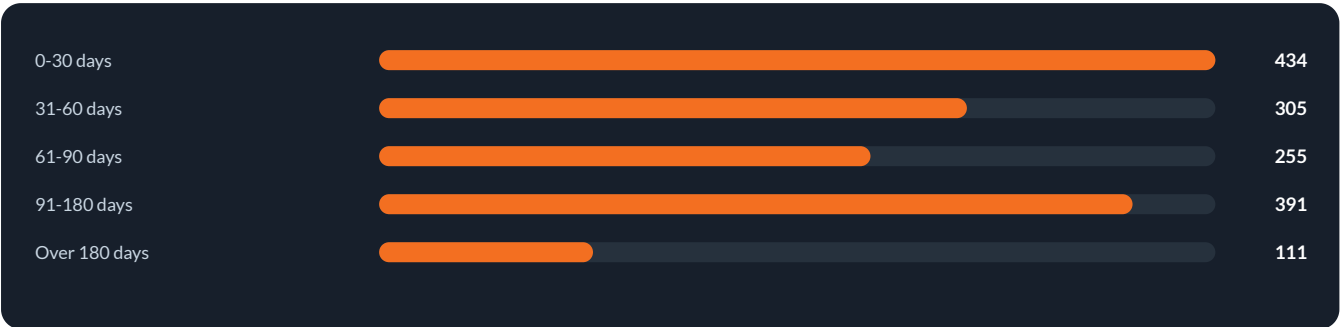

COMPANY	LEGACY ITEMS	RADIOS	DRÄGER GAS MONITORS	GAS MONITORS
Ampol	255	255	0	0
Wood	202	202	0	0
Contract Resources	130	130	0	0
Future Fuels	87	0	87	0
HIS	30	30	0	0
Manpower	21	21	0	0
Enermech	17	17	0	0
Saunders	16	16	0	0

What is out - category split

High Torque		29
Rigging		227
Electrical		82
General		1158

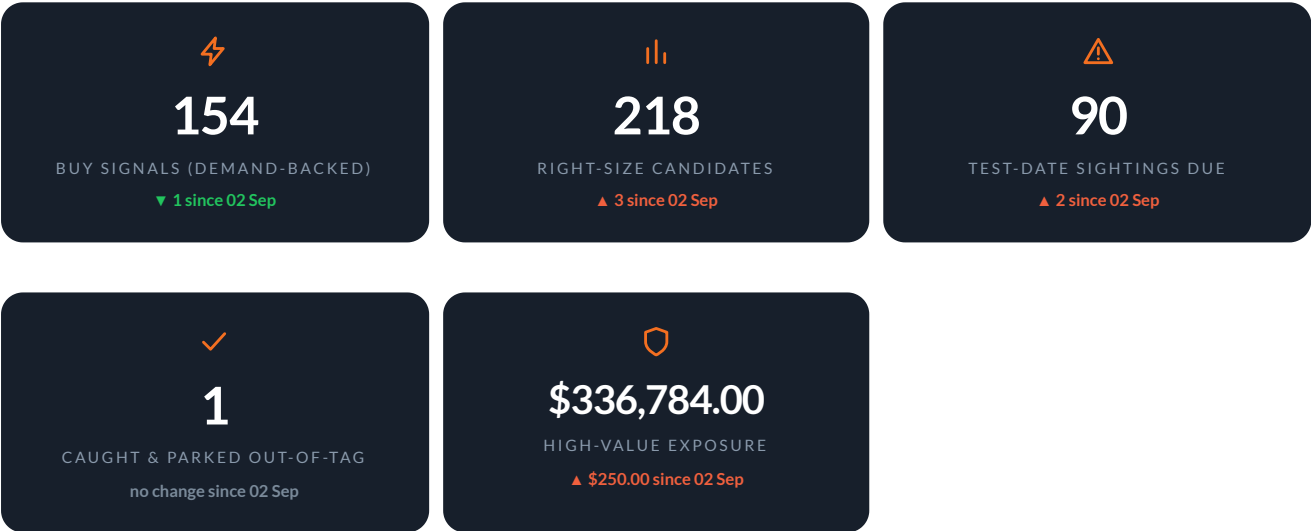

Items on hire by description family (High Torque / Rigging / Electrical keyword match on the register description; General is everything else).

On-hire ageing profile

How long the current on-hire items have been out - days since their on-hire date. The quarterly recovery cycle is what brings the long tail home.

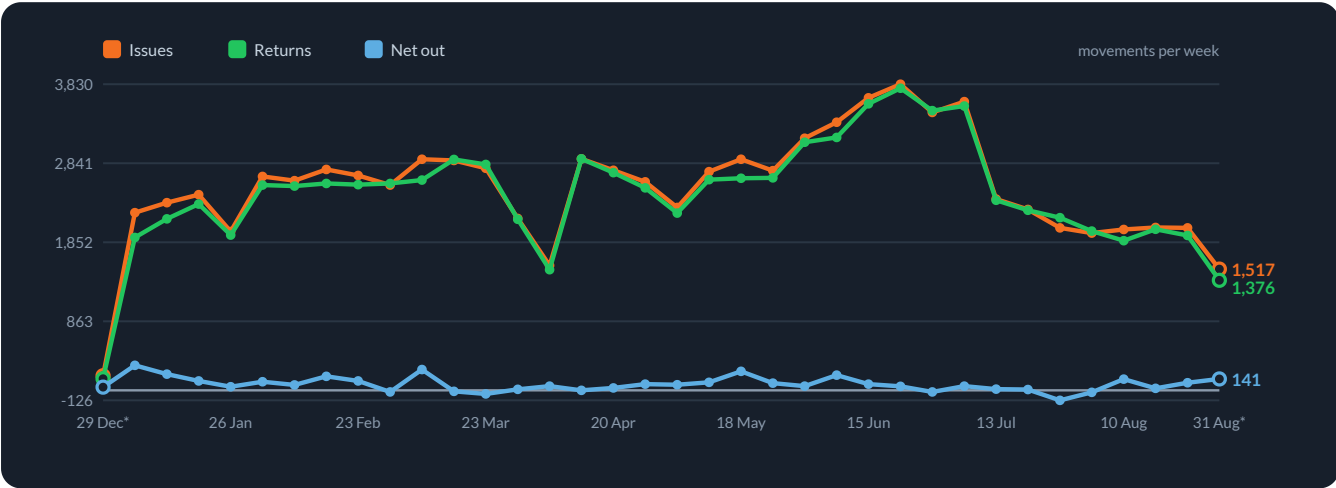

Signals - buy, right-size and compliance

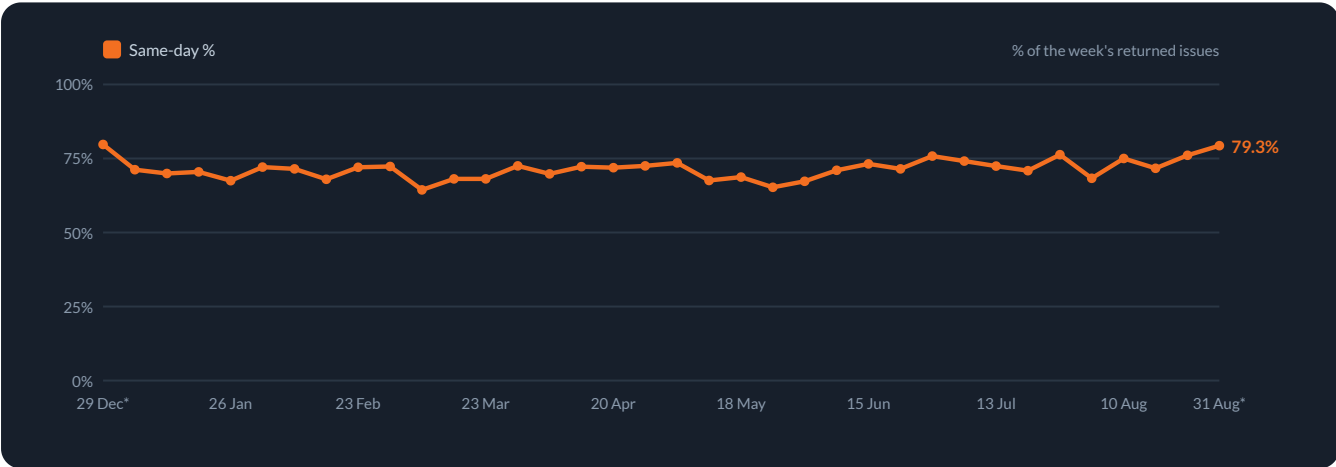

Detail sits in the companion reports: the Tooling On-Hire Report (every company, hirer and item, A to Z), the Quarterly On-Hire charge reports, Utilisation & What-To-Buy, and Compliance & Trends - each one client-ready, each one emailable from this kit.

The store's year in movements

Every issue and every return in the SiteIQ TRANSACTIONS export (CUSTOMER_CONTRACTOR_EQUIP, 01 Jan 2026 06:00 to 03 Sep 2026 05:59) - every account and every family, not only the tooling on page 1 - by the ISO week it happened: **91,021** issues and **88,329** returns over 36 weeks. A return is counted in the week it came back, so a week's net out is what went out and stayed out that week.

The whole store's movements by ISO week (week starting): issues by the start time, returns by the end time, net out = issues less returns in the week (below the zero line when returns beat issues). Busiest week 22 Jun: 3,830 issues. * partial weeks: 29 Dec (the log begins 01 Jan 2026); 31 Aug (runs to the pull, 03 Sep 2026 05:59).

Same-day share by week: of the week's issues that have come back, the share that came back the day they went out. Highest 29 Dec (79.7%), lowest 09 Mar (64.4%). * partial weeks: 29 Dec (the log begins 01 Jan 2026); 31 Aug (runs to the pull, 03 Sep 2026 05:59).

WEEK STARTING	ISSUES	RETURNS	NET OUT	SAME-DAY %
29 Dec (partial)	183	145	+38	79.7%
05 Jan	2,223	1,911	+312	71.2%
12 Jan	2,347	2,146	+201	69.9%
19 Jan	2,447	2,331	+116	70.5%
26 Jan	1,987	1,942	+45	67.5%
02 Feb	2,676	2,568	+108	72.1%
09 Feb	2,622	2,556	+66	71.5%

WEEK STARTING	ISSUES	RETURNS	NET OUT	SAME-DAY %
16 Feb	2,764	2,589	+175	68%
23 Feb	2,689	2,573	+116	72%

30 Mar	2,151	2,139	+12	72.5%
06 Apr	1,561	1,509	+52	69.8%
13 Apr	2,896	2,896	0	72.2%
20 Apr	2,753	2,723	+30	71.9%
27 Apr	2,608	2,532	+76	72.5%
04 May	2,288	2,218	+70	73.5%
11 May	2,735	2,636	+99	67.6%
18 May	2,890	2,653	+237	68.7%
25 May	2,748	2,659	+89	65.3%
01 Jun	3,155	3,103	+52	67.3%
08 Jun	3,355	3,165	+190	71%
15 Jun	3,660	3,584	+76	73.2%
22 Jun	3,830	3,781	+49	71.5%
29 Jun	3,478	3,500	-22	75.8%
06 Jul	3,611	3,558	+53	74.1%
13 Jul	2,393	2,379	+14	72.4%
20 Jul	2,262	2,252	+10	70.9%
27 Jul	2,033	2,159	-126	76.3%
03 Aug	1,966	1,991	-25	68.3%
10 Aug	2,011	1,871	+140	75%
17 Aug	2,037	2,014	+23	71.7%
24 Aug	2,033	1,938	+95	76.1%
31 Aug (partial)	1,517	1,376	+141	79.3%
Total	91,021	88,329	+2,692	-

So what: 22 Jun was the busiest week (3,830 issues) and net out ran positive in 29 of 36 weeks - the year's issues are 2,692 ahead of its returns, which is the gear the quarter-close list brings home. Roster the counter to the peak weeks, not the average week.

Who holds what - ranked by items held, top 20 of the store's holders

Every item On Hire on the SiteIQ RENTAL_STOCK register at the pull, every family, grouped by hirer and company: **729** holders carry **3,561** items (\$4,042,951.50 priced). This table is ranked by items held; custody, holding and project accounts are named as accounts - they are workflows, not people. Oldest is the days out of the holder's longest-held item at 03 Sep 2026; families are gas, radio and tooling.

#	HIRER	COMPANY	ITEMS	PRICED VALUE	UNPRICED	OLDEST (DAYS)	FAMILIES HELD
1	Thoeun Nam	Ampol	197	\$162,039.00	1	1,273	radio, tooling
2	Dräger FCCU (account)	Dräger	178	\$356,000.00	0	57	gas
3	Future Fuels (account)	Future Fuels	87	\$174,000.00	0	685	gas
4	FCCU 2026 (SFI) (account)	Ampol	82	\$27,530.00	4	56	tooling
5	Bart Edwards	Ampol	65	\$96,807.00	0	1,283	radio
6	All-Around Repairs (account)	Repairs	57	\$81,144.00	0	237	tooling
7	Glenn McCabe	Enermech	47	\$315.00	46	99	tooling
8	Dane Cassidy-Shutdown	Contract Resources	45	-	45	56	tooling
9	John Pattel	Contract Resources	44	\$72,834.00	1	241	gas, radio, tooling
10	Simon Phillips	HIS	43	\$64,366.00	1	1,277	gas, radio, tooling
11	Threyne Anderson-Thompson	Wood	42	\$17,631.90	0	1,058	radio, tooling
12	Roth Kheng	Contract Resources	36	\$13,599.00	2	335	gas, radio, tooling
13	After Hours Hire account	Ampol	33	\$43,198.00	0	6	gas, radio
14	Sean Cotton	Wood	33	\$14,418.00	1	422	radio, tooling
15	Joshua Laird	HIS	32	\$16,048.95	0	329	radio, tooling
16	Ampol Operations (account)	Ampol	31	\$62,000.00	0	55	gas
17	Wade Remfry	Wood	31	\$12,757.00	0	295	radio, tooling
18	Wade Mathews	Ampol	29	\$38,452.00	0	1,056	gas, radio, tooling
19	Dräger Failed Bump Test (account)	Dräger	29	\$58,000.00	0	239	gas
20	Mitchell Barrington	Enermech	29	\$54,623.00	0	155	gas, radio, tooling

258 of the 729 holders carry 80% of the items on hire; 257 carry 80% of the priced value.

198 holders hold two or three families at once (22 hold all three) - the top five by items

HIRER	COMPANY	ITEMS	FAMILIES HELD
Thoeun Nam	Ampol	197	radio, tooling
John Pattel	Contract Resources	44	gas, radio, tooling
Simon Phillips	HIS	43	gas, radio, tooling
Threyne Anderson-Thompson	Wood	42	radio, tooling
Roth Kheng	Contract Resources	36	gas, radio, tooling

So what: one conversation per holder recovers more than one per item: the 258 holders carrying 80% of the items are the list to walk first, and the 198 cross-family holders get one combined list, not a radio list, a gas list and a tooling list.

The counter's rhythm

Every movement in the TRANSACTIONS export by the weekday and hour it was scanned: **91,021** draws by their start time and **88,329** returns by their end time. The count is printed in every cell; the shade follows the count against the grid's busiest cell, and an empty cell is a zero.

	00	01	02	03	04	05	06	07	08	09	10	11	12	13	14	15	16	17	18	19	20	21	22	23

Thu				18	531	233	144	889	1222	515	556	541	642	1909	3068	4187	2793	559	16					
Fri				95	437	101	219	970	1158	881	985	1188	1212	2983	2163	2776	1349	464						
Sat				1	22	49	91	100	105	21	52	43	76	160	61	57	339	115						
Sun				11		1	12	1		13		2		4	52	13	2	15						

Returns by weekday and hour of the end scan - the same grid, the hour the movement closed in.

The three busiest hours for draws: **05:00** (25,011 draws), **04:00** (20,573 draws), **07:00** (13,412 draws). The store runs two shifts, 04:00 to 12:30 and 09:00 to 17:30, and opens for business at 07:00. Before opening (04:00 to 06:59), when the first shift bumps the gas monitors, scans the return box and makes up the pre-made packs: **56,183** draws (62%); trading hours (07:00 to 17:29): **34,218** (38%); after hours (17:30 to 03:59): **620** (1%).

So what: the counter's peak is the pre-open window - 62% of all draws land between 04:00 and 06:59, the bump, the return box and the packs - so that is where the double scan needs two people; the quiet afternoon hours are where a bay-by-bay sighting sweep fits.

What the log and the register disagree on

Four things the SiteIQ TRANSACTIONS log and the RENTAL_STOCK register do not agree on, or that look like a scan habit rather than a hire - the whole store, every account and family. Nothing here is corrected; it is shown so the reader knows what the figures on every other page are built on. The log begins 01 Jan 2026 06:00 and ends 03 Sep 2026 05:59; the register was pulled 03 Sep 2026 15:27.

469 movements closed inside 6 minutes

Out and back inside 6 minutes - a scan to test a tag, a wrong item handed straight back, or a barcode scanned twice at the counter. They sit inside the transactions count and the same-day figure on page 1. The 12 most recent of the 469:

HIRER	COMPANY	DESCRIPTION	BARCODE	OUT	BACK	MINUTES
Tyler Schuttz	Wood	Milwaukee M18 fuel SDS max rotary hammer - 44mm	CTX040/001	02 Sep 09:18	02 Sep 09:22	3.1

1,488 mass draws - one person, 15 or more items in one hour

A mass draw is a kit or a crew lead drawing for a whole crew in one visit - every item scanned to one name in one hour. It is a scan habit to know about, not an error: the gear is on hire to the person who drew it, not to the people carrying it. The 12 largest of the 1,488, ranked by items:

HIRER	COMPANY	DAY	HOUR	ITEMS
Dräger FCCU (account)	Dräger	08 Jul 2026	15:00 to 15:59	150
FCCU T&I (account)	Ampol	06 Jul 2026	06:00 to 06:59	96
Thoeun Nam	Ampol	18 May 2026	09:00 to 09:59	90
FCCU T&I (account)	Ampol	01 Jul 2026	04:00 to 04:59	80
T&I Tool store (account)	Ampol	11 Mar 2026	10:00 to 10:59	64

All-Around Repairs (account)	Repairs	25 May 2026	15:00 to 15:59	51
Loading Bay Out Of Service (account)	Ampol	25 Jun 2026	08:00 to 08:59	50

5 items on hire with no movement in the log since it began

The register shows these On Hire, and the log holds no movement for their barcode at all. All 5 were issued on 03 Sep 2026 after 05:59, when the TRANSACTIONS export's period ends - they are newer than the log, not missing from it.

COMPANY	HIRER	BARCODE	DESCRIPTION	ON HIRE SINCE
Wood	Threyne Anderson-Thompson	AMP060/010	TIG torch	03 Sep 2026 07:33
HIS	Mathew Redman	CTX000/012	RCD 240V 10A	03 Sep 2026 09:59
Cleanaway	Asiata Lancelotte	amp053/006	Motorola Radio	03 Sep 2026 11:15
Wood	Todd Van Der	SD0085/002	Welding helmet pack (5 items)	03 Sep 2026 12:08
HIS	Adam Caldwell	WG0203/004	3/4" Drive socket 1-1/8"	03 Sep 2026 13:43

850 items on hire issued before the log begins - history, not a gap

Separately, 850 items on hire were issued before 01 Jan 2026, where the TRANSACTIONS export starts (760 radio, 90 gas) - the register carries their on-hire date, the log cannot. They are the legacy rows the Radio and Gas Monitor reports chase. The 12 oldest, ranked by on-hire date:

COMPANY	HIRER	BARCODE	DESCRIPTION	ON HIRE SINCE
Wood	Max Filippi	AMPMR/411	Motorola Radio (122TYX1084)	14 Feb 2023 07:17

So what: the six-minute closes and the mass draws are habits, not errors - a word at the counter about scanning a kit as a kit keeps the same-day figure honest; the register and the log agree on every available item, so the on-hire pages can be trusted to the item.

Data and method

Honest limits

- Every figure is counted from the SiteIQ exports beside this report - never from a workbook tab or a hardcoded summary cell. On hire = register rows On Hire with a 2026 on-hire date, less radios, gas monitors, Dräger equipment, lanyards and steel coil clamps (reported separately) and less the tool store's own holding accounts (T&I - Tool store, All-Around - Repairs, Bulk - Yard, Loading Bay - Out Of Service, Out Of - Calibration, Rigging & 240V - Out Of Tag Date).
- Company names follow the suite's one naming rule: the site's former-name account and the refinery legal name both read Ampol; CR reads Contract Resources; FCCU and SATGAS/MOL project accounts roll up to their company (the Tooling On-Hire Report shows the account against each hirer). Repairs is an internal custody account, never a company.
- Three things to do today are drawn from the same on-hire list: the company holding the most items over 90 days, the oldest item out, and the unpriced items (or the second-largest over-90 holder when everything is priced). Since the last pull compares the register with the newest earlier export parked in Data\previous, and the 24 hours before the pull are counted from the TRANSACTIONS export - both for this report's population (tooling items on the SiteIQ register - radios, gas monitors, Dräger equipment, lanyards and steel coil clamps are excluded, and so are the tool store's holding accounts and the Company Repairs account).
- Trend page: appears once seven days are on record (2 today).
- 316 items on hire across the whole register will have been out 90 days or more by 30 Sep 2026 unless they come back - arithmetic on each item's on-hire date (an item under 90 days out at the pull whose on-hire date is 90 days or more before the close), never a forecast; 1,644 are already over 90 days. The tooling share - 225 of the 1,496 on hire on page 1 - is on the Tooling On-Hire Report's quarter-close page.
- The store-wide pages (the store's year in movements, who holds what, the counter's rhythm, what the log and the register disagree on) are counted from the SiteIQ TRANSACTIONS export (CUSTOMER_CONTRACTOR_EQUIP, report period 01 Jan 2026 06:00 to 03 Sep 2026 05:59; 91,021 movements) and the RENTAL_STOCK register (8,182 barcodes), every account and every family - the whole store, not the tooling population on page 1. Rules: a short hire is a movement closed inside 6 minutes; a mass draw is one person with 15 or more items in one hour; a 90-day crossing is as above; a product is the SiteIQ description with its size and serial tail removed; weeks are ISO weeks by start time (issues) and end time (returns). Nothing is corrected, weighted or forecast.
- Data as at: SiteIQ RENTAL_STOCK pull 03 Sep 2026 15:27; SiteIQ TRANSACTIONS pull 03 Sep 2026 13:58 (report period 01/01/2026 06:00:00 - 03/09/2026 05:59:59); SiteIQ STOCKTAKE pull 03 Sep 2026 15:28. Every figure is computed from these exports by this kit - the Excel workbook is not read for any printed number.
- Replacement value is the catalogue new-buy average (Avg Buy Price (New) in Ampol_ToolStore_Pricing.xlsx); where a description is listed more than once the first price is used. Unpriced items show a dash and are excluded from value totals - never estimated.

Our standard, honest limits and how to read this report

OUR STANDARD

Life Saving Rule 5 - Tools and Equipment (SEQ-GL-009): nothing damaged, defective or out of test date is ever reissued. Every issue and every return runs through the double scan - Two scans. Two looks. One standard. | Nothing goes on the shelf unless it is ready for hire. | Right first time. Every item. Every time. Daily stocktakes keep eyes on the fleet: nothing in the store goes over 30 days without being scanned, and anything damaged is tagged Out of Service on the spot. We are here to help - if gear is finished with, hand it back to the tool store and it comes off your list the same day.

HONEST LIMITS

Every figure on these pages is counted by this kit from the SiteIQ exports named under Data and method - never from a workbook tab or a typed-in summary. Unpriced items show a dash and never enter a total. Where a rule or a limit matters, it is written out there in plain words.

NAMES AS SHOWN

The site is Ampol on every page: where SiteIQ still carries the former name it is shown under the current one, and the Tooling On-Hire Report's data page says how many lines do. One customer, one name: project accounts roll up to their company and the SiteIQ account is shown against the hirer. Hirer names are as SiteIQ records them.

HOW TO READ THIS

The tiles are the position; the tables beneath carry the same figures by quarter and by company, A to Z. A ranked table says so in its heading. The detail sits in the companion reports named on the last page.

THE COATES WAY • OUR OPERATING MODEL, OUR STANDARD, OUR WAY

Australia's most trusted equipment partner - delivering Best Service & Value.

PURPOSE Supporting Australia's growth with leading equipment solutions.

Care Deeply (safety & wellbeing first, always) • **Customer Focused** (listen, anticipate, exceed expectations) • **Be Our Best** (accountability, learning, determination) • **One Team** (collaborative, trusted, inclusive) • **Competitive Spirit** (set stretch goals, be THE best)

SCORECARD Green - on track • Amber - at risk • Red - action needed: a documented root cause, corrective actions, an owner and a deadline.

WHERE THIS REPORT SITS Performance-led Results, Operational Excellence, Customer Centric, Cadence • every over-90-day item has a named holder; the quarterly recovery cycle is the cadence that keeps the fleet honest

Every figure in this report is counted from the SiteIQ exports named on its data page - nothing is estimated, weighted or typed in. Wording: The Coates Way, branch edition, July 2026.
