Ampol Utilisation & What-To-Buy Report

Ampol Lytton Refinery • Permanent Tool Store

Generated: 03 Sep 2026 04:29 | Data as at: 02 Sep 2026 18:30 (SiteIQ register pull) | Author: Andrew Fisher

KEY • **LIVE** share of a group on hire at the pull • **YTD** hire days against days available this year • **BUY SIGNAL** demand-backed, with the evidence beside it

THE POSITION. Utilisation is measured two ways: **live** (what share of a group is on hire right now) and **year-to-date** (actual hire days against days available). Groups running hot are where crews wait for gear; groups running cold are capital sitting still. The buy list below is evidence-based - every line shows the demand that justifies it. Figures are computed from the 02 Sep 2026 18:30 SiteIQ exports: 245 days elapsed this year to 02 Sep 2026.

Dead stock - never moved this year

An item is dead stock here when the SiteIQ RENTAL_STOCK register shows it Available for Hire and the TRANSACTIONS log holds no movement for its barcode at all since the log began (01 Jan 2026 06:00). Across the whole register, every family, **3,000** of the 4,720 available items with a barcode never moved - \$483,613.95 at replacement (248 unpriced). For tooling - this report's scope, radios, gas monitors, Dräger equipment, lanyards and steel coil clamps out - **2,819** of the 4,051 available barcoded items never moved.

Page 10 of 16

Never moved by bay - ranked by items, top 12

Tooling items never moved this year by the storage unit the register shows them in - top 12 of 60 bays, ranked by items.

The other bays: B-B05 (67), C-B06 (55), B-B06 (54), E-B03 (41), E-B06 (39), C-B04 (36), C-B05 (34), L-B08 (33), A-B02 (32), A-B05 (30), L-B11 (23), F-B04 (23), L-B09 (22), L-B05 (20), F-B06 (19), A-B03 (18), G-B01 (17), A-B06 (17), L-B06 (17), F-B03 (15), C-B03 (14), F-B05 (14), A-B04 (13), C-B01 (13), C-B02 (13), L-B07 (13), WELDING BAY (12), G-B05 (10), I-B01 (10), L-B10 (9), G-B02 (9), G-B04 (9), G-B06 (7), H-B01 (5), I-B02 (5), H-B02 (5), AMPOL NEW TOOL STORE (4), H-B03 (4), H-B04 (4), D-B06 (3), G-B03 (2), L-B01 (2), CHARGING STATION (2), L-B03 (1), I-B06 (1), I-B05 (1), H-B05 (1), D-B02 (1).

So what: 2,819 tooling items have not left the shelf all year - \$443,488.95 of replacement value sitting still, 1,110 of them in the top 20 products. These are candidates to cut, not a decision: walk E-B01 (511 items) with this list first, and cut nothing a shutdown needs.

Headroom - fleet against the peak out at once

Per product: the fleet on the register today, the most out at once this year (counted from the log's start and end times, every account), out now, never moved, and the headroom - fleet less peak, the part of the fleet the store has never needed at one time. **The rule, printed so the marks can be checked:** BUY candidate when the peak out at once is 90% or more of the fleet; CUT candidate when the headroom is 50% or more of the fleet and at least one item never moved. The marks are the rule applied, not a decision. Of the 1,122 tooling products, 409 meet the buy rule and 606 the cut rule; the top 30 by fleet are listed, ranked by fleet.

PRODUCT	FLEET	PEAK OUT AT ONCE	PEAK ON	OUT NOW	NEVER MOVED	HEADROOM	MARK
Spanner Roe	212	46	23 Jun 15:01	32	116	166	CUT candidate
Socket 3/4D	158	11	19 Aug 08:02	8	130	147	CUT candidate
Samsung Galaxy Tab Active	120	120	10 Aug 07:25	120	0	0	BUY candidate
Critical Risk Signage	116	116	14 Aug 07:47	115	0	0	BUY candidate
Podger Spanner Ring	98	2	07 Jan 13:21	0	93	96	CUT candidate
Socket 1/2D	89	7	07 May 07:36	7	74	82	CUT candidate

Whip Check	43	25	11 Aug 10:32	18	18	18	

PRODUCT	FLEET	PEAK OUT AT ONCE	PEAK ON	OUT NOW	NEVER MOVED	HEADROOM	MARK
Sling 1 Tonne X 1 Metre	42	27	06 Jul 09:10	22	11	15	
Welding Lead Tail	41	10	24 Jun 10:58	8	26	31	CUT candidate
Gauge Press	39	34	11 Jun 07:47	6	1	5	
Confined Space Harness	37	31	18 Aug 08:32	27	0	6	
Milwaukee Lithium-Ion 5Ah Battery	33	32	16 Jun 08:15	28	0	1	BUY candidate
Impact Socket 1/2 Drive	31	4	30 Mar 08:48	2	23	27	CUT candidate
Spanner O/E	30	3	09 Feb 10:06	2	25	27	CUT candidate
Chipping Hammer	26	2	14 May 13:33	1	23	24	CUT candidate
Plummers Plug	26	5	05 Aug 11:26	7	19	21	CUT candidate
Unc Tap	26	3	01 Jul 14:49	2	22	23	CUT candidate

So what: in the top 30 by fleet, 5 products ran at or near their whole fleet at once (Samsung Galaxy Tab Active, Critical Risk Signage, Usb Wall Charger) - the demand-backed buy list above is where they belong - and 20 carry headroom the store never used; a right-size call on those starts with the never-moved count beside them, not with the fleet number.

Fast movers - ranked by movements, top 20

The tooling items with the most movements in the log this year - every issue counts one - with the bay the register shows them in now, their status at the pull and their last movement. **2,811** tooling barcodes moved at all this year against the 2,819 available ones that never did.

#	BARCODE	DESCRIPTION	BAY	STATUS	MOVES	LAST MOVEMENT

18	SD0051/051	Milwaukee M18 RedLithium Battery - 5Ah	I-B01	On Hire	27	27 Aug 2026 12:19
19	SD0051/013	Milwaukee M18 RedLithium Battery - 5Ah	I-B01	On Hire	27	25 Aug 2026 12:14
20	AMP144/005	Milwaukee M18 RedLithium Battery - 5Ah	I-B01	Available for Hire	26	30 Jul 2026 08:05

Movements this year by the bay the item sits in now - top 12 bays, ranked by movements, every tooling barcode that moved.

So what: the busiest tooling lives in RIGGING BAY and I-B01 - keep those bays nearest the counter and check their tags first; the fast movers are the items whose test dates come round quickest.

Data and method

Honest limits

- Utilisation is computed by this kit from the SiteIQ TRANSACTIONS and RENTAL_STOCK exports, grouped by corrected description, using the same rules as the workbook's Tooling Utilisation query (hire days = distinct calendar days a barcode was out since 1 Jan; YTD % = hire days / (qty x days elapsed)). Items without a corrected description are not yet included - Tooling_Description_Mapping.xlsx has 3,415 rows; 2,194 distinct barcodes are usable after the excluded-family filter, and 3,690 of 90,602 transactions (4.1%) feed utilisation. Coverage grows as descriptions are corrected.
- Radios, gas monitors, Dräger equipment, lanyards and steel coil clamps are excluded here exactly as they are from the on-hire reports - one list for both.
- Buy prices are catalogue averages from Ampol_ToolStore_Pricing.xlsx (first price where a description is listed more than once); groups without a price show a dash.
- The dead stock, headroom and fast-mover pages are counted from the SiteIQ TRANSACTIONS export (CUSTOMER_CONTRACTOR_EQUIP, report period 01 Jan 2026 06:00 to 02 Sep 2026 05:59; 90,602 movements) against the RENTAL_STOCK register. Their population is every register barcode with a tooling description (5,653 barcodes, every status and account) - radios, gas monitors, Dräger equipment, lanyards and steel coil clamps out, as everywhere in this family; the store-wide never-moved figure counts every family. Rules: dead stock is an Available for Hire barcode with no movement in the log at all; a product is the SiteIQ description with its size and serial tail removed (the corrected name is shown where the mapping has one for every item under it); the peak out at once is counted from the log's start and end times; headroom is fleet less peak; BUY and CUT are the printed rule applied, not a decision; movements count every issue.
- Data as at: SiteIQ RENTAL_STOCK pull 02 Sep 2026 18:30; SiteIQ TRANSACTIONS pull 02 Sep 2026 18:30 (report period 01/01/2026 06:00:00 - 02/09/2026 05:59:59); SiteIQ STOCKTAKE pull 02 Sep 2026 18:29. Every figure is computed from these exports by this kit - the Excel workbook is not read for any printed number.

Our standard, honest limits and how to read this report

OUR STANDARD

Life Saving Rule 5 - Tools and Equipment (SEQ-GL-009): nothing damaged, defective or out of test date is ever reissued. Every issue and every return runs through the double scan - Two scans. Two looks. One standard. | Nothing goes on the shelf unless it is ready for hire. | Right first time. Every item. Every time. Daily stocktakes keep eyes on the fleet: nothing in the store goes over 30 days without being scanned, and anything damaged is tagged Out of Service on the spot. We are here to help - if gear is finished with, hand it back to the tool store and it comes off your list the same day.

HONEST LIMITS

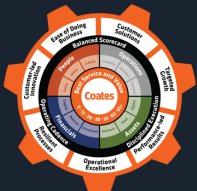

Every figure on these pages is counted by this kit from the SiteIQ exports named under Data and method - never from a workbook tab or a typed-in summary. Unpriced items show a dash and never enter a total. Where a rule or a limit matters, it is written out there in plain words.

NAMES AS SHOWN

The site is Ampol on every page: where SiteIQ still carries the former name it is shown under the current one, and the Tooling On-Hire Report's data page says how many lines do. One customer, one name: project accounts roll up to their company and the SiteIQ account is shown against the hirer. Hirer names are as SiteIQ records them.

HOW TO READ THIS

Live is the share of a group on hire at the pull; YTD is hire days against days available this year. Buy signals are ranked by live utilisation then hire days; right-size candidates by YTD utilisation, lowest first. A dash means no catalogue price.

THE COATES WAY • OUR OPERATING MODEL, OUR STANDARD, OUR WAY

Australia's most trusted equipment partner - delivering Best Service & Value.

PURPOSE Supporting Australia's growth with leading equipment solutions.

Care Deeply (safety & wellbeing first, always) • **Customer Focused** (listen, anticipate, exceed expectations) • **Be Our Best** (accountability, learning, determination) • **One Team** (collaborative, trusted, inclusive) • **Competitive Spirit** (set stretch goals, be THE best)

SCORECARD Green - on track • Amber - at risk • Red - action needed: a documented root cause, corrective actions, an owner and a deadline.

WHERE THIS REPORT SITS Performance-led Results, Operational Excellence, Customer Centric, Cadence • every over-90-day item has a named holder; the quarterly recovery cycle is the cadence that keeps the fleet honest

Every figure in this report is counted from the SiteIQ exports named on its data page - nothing is estimated, weighted or typed in. Wording: The Coates Way, branch edition, July 2026.
