PROGRESS INVOICE

SitelQ renders the August 2026 invoice as a **single line**. This breakdown is the companion that shows what that line is made of — every dollar grouped by stream, straight from SiteIQ's own daily invoicing, covering **31 Jul - 01 Aug 2026** (2 invoiced day(s)). A **final invoice** follows next month as the shutdown closes out.

What the invoice is made of

Each stream as SiteIQ invoiced it — the rows sum to the invoice total to the cent.

STREAM	AMOUNT	SHARE
Plant, tooling & equipment hire	\$22,096 	100%
Invoice total	\$22,096	

The month-end rule: SiteIQ registers the **last day of a month** into the next month's invoice — 31 Aug's hire sits in next month's final invoice, and 31 Jul's sits in this one. Radios, gas monitors and the welders are invoiced separately and are **not in this figure** — the two invoices never share a dollar.

Tooling — by product group

The tool aisles (Tooling, Hydraulics & Hi-Torque). The number runs small because the hand-tool aisles go out largely free-issue — that is the real shape of the hire, not missing data.
