Totals: 864 items on hire across 13 companies; est. daily value \$7,336.38; est. spend to date \$67,898.84. This summary is the INTERNAL Coates view - hire costs do not appear on the per-company reports.

COST STREAM: SiteIQ invoicing only. Every dollar on this page bills through SiteIQ. The separate monthly invoice - radios, gas monitors, sub-hired welders and forklift, compressor, crib gear and its own transport - is tracked on its own page (button 49) and none of its dollars appear here. The two streams never share a figure.

Radio fleet daily charge - on the separate invoice

Charged on the separate invoice, not through SiteIQ - shown here so the whole cost picture is on one page, never added to the SiteIQ totals above. Cross-checked line-for-line by the Separate Invoice Tracker (button 49). 72 radio handsets in RENTAL_STOCK (batteries and covers excluded); **70 billable** at \$12.81 each per day, charged whether on hire or not, from 17 Jul 2026 (no backdating): **\$896.70 per day**; accrued to date (20 charged days): **\$17,934.00**. 2 handsets held as unbilled spares in case a unit stops working - disclosed here, excluded from the charge.

Sub-hired gear is the same deal - the units whose barcodes carry the SUB prefix (the SUBHARVEY welders) or a supplier code (forklift FK505) are **charged on the separate invoice**: listed and tracked in this pack, no rate in the SiteIQ totals, dollars on the Separate Invoice Tracker (button 49). Coates welders and forklifts with plain numeric barcodes ARE SiteIQ-charged and keep their rates. Nothing counted twice, nothing stripped wrongly.

Gas monitor fleet daily charge - on the separate invoice

Charged on the separate invoice, not through SiteIQ - shown for the whole picture, never added to the SiteIQ totals above; the Separate Invoice Tracker (button 49) carries and cross-checks it. 30-unit gas monitor fleet; billed at \$29.75 each per day, charged whether on hire or not, from 24 Jul 2026 until the last forecast day in Daily Tracking: **\$892.50 per day**; accrued to date (13 charged days): **\$11,602.50**.

✓ The right gear to the right crew

✓ Looked after, maintained & ready

✓ Checked and right - every time

Honest limits: Rates are contracted base rates; unpriced items are excluded from value totals - never estimated, never \$0. Spend to date is charged inclusive of the on-hire day. Radios with no contracted rate charge \$12.81 each per day (on hire or not) from 17 Jul 2026 - no backdating. Replacement costs come from the K2 replacement cost schedule where an item matches by description; unmatched items show TBC and are excluded from the exposure total. Consumables are quantities only - no consumables price feed is loaded, so no dollar values are shown or implied for them. All data reflects SiteIQ as at the data-as-at stamp above - this report is a point-in-time snapshot.

All returns go through the Coates tool store, handed to the stores team and double-scanned. Nothing is returned unless it is scanned.
