PAGE 1 OF 6

THE POSITION. One page, one honest answer: is the Ampol tool store counted and under control? **8,148 countable items** on the register, **65.4%** sighted inside the 30-day SOP cycle, and **\$1,903,010** of the **\$4,577,190** priced fleet verified in the last 30 days. On the shelf the position is stronger again: **no in-store item has gone unsighted past 72 days**. Every score prints its own arithmetic - it can be challenged, checked and trusted. Transit stock (4,932 lines pending branch movement) is excluded.

30-day SOP compliance - whole store

- ✓ **Gas Monitors** **99/100**
509 of 516 in-store items sighted inside the 30-day SOP - internal target is every 7 days (503 inside it)
- ✓ **Radios & Radio Batteries** **97/100**
132 of 136 in-store items sighted inside the 30-day SOP - internal target is every 7 days (104 inside it)
- ✓ **Milwaukee Power Tools** **99/100**
141 of 142 in-store items sighted inside the 30-day SOP - internal target is every 14 days (133 inside it)
- ✓ **All Other Tooling** **96/100**
3775 of 3916 in-store items sighted inside the 30-day SOP - internal target is every 30 days (3775 inside it)

SOP compliance = items sighted in the last 30 days ÷ countable items = 5,332 ÷ 8,148 = **65.4%**. Tier bars are rated on in-store assets; on-hire assets are verified through the double-scan return process and shutdown checks, shown separately below.

KEY ● **COUNT DAILY** stock takes are done daily - no exceptions ● **TWO SCANS TWO LOOKS** scanned and sighted, out and back ● **P1 7-DAY** gas monitors, radios & batteries every 7 days

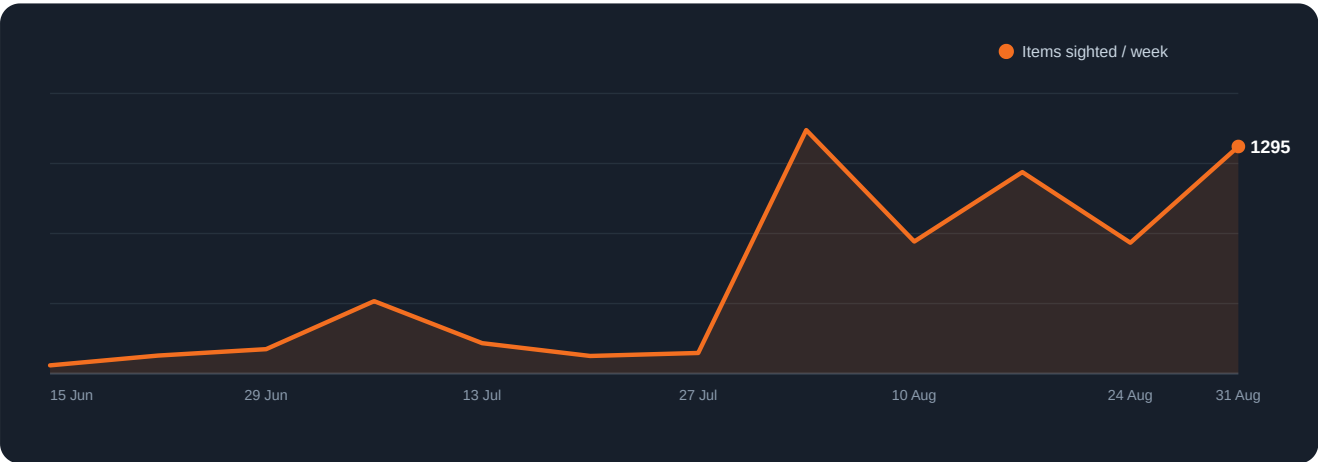

The priority determination - stated, not implied

HOW THIS STORE IS COUNTED

- **P1 · Gas Monitors - every 7 days**
Safety-critical; bumped & charged before issue
- **P1 · Radios & Radio Batteries - every 7 days**
Safety-critical comms; high churn
- **P2 · Milwaukee Power Tools - every 14 days**
High value, high shrinkage risk
- **P3 · All Other Tooling - every 30 days**
30-day full-coverage SOP cycle

Client compliance is measured on the 30-day SOP. The 7 and 14-day cycles are the Coates internal standard set **above** the SOP. Issue and return scans reset an item's clock, so the count cadence naturally surfaces idle stock - exactly the gear that goes missing quietly.

Counting activity — items sighted per week, last 12 weeks

Coverage by storage bay - RAG rated

Green from 90% sighted inside 30 days, amber from 75%, red below - the same RAG discipline as every Coates report.
Due counts items outside their own tier target, so a red bay tells you exactly where the trolley goes next.

STORAGE BAY	ITEMS	SIGHTED 30D	DUE (TIER TARGET)	PRICED VALUE
CHARGING STATION	645	98%	39	\$400,047
E-B01	615	100%	3	\$22,328
RIGGING BAY	327	85%	49	\$39,183
E-B02	277	99%	4	\$19,764
E-B04	220	100%	0	\$26,739
F-B01	197	98%	3	\$31,435
D-B01	197	100%	0	\$12,490
D-B04	186	100%	0	\$21,531
D-B03	173	100%	0	\$12,414
F-B02	146	100%	0	\$9,525
A-B01	123	94%	7	\$5,105
G-B01	105	100%	0	\$90,385
L-B04	98	100%	4	\$27,423
D-B05	78	99%	1	\$5,940
B-B05	77	100%	0	\$13,105
C-B06	68	100%	0	\$32,426

Plus 54 smaller bays holding 1,178 items between them - full detail in the staff worklist. Bays are the item's home storage unit from the live register; on-hire items are excluded from bay coverage.

The idle tail - where the risk actually sits

The risk is never the gear that moves - it is the gear that sits. On the shelf that tail is **effectively cleared**: 153 of 4,710 in-store items are outside 30 days and the oldest is **72 days**. The watch item is **long-hire gear**: 1,045 on-hire items have had no verification scan in over 180 days, holding **\$1,357,641** of priced value - these are verified at return and at shutdown checks, and the long-hire list below is where that effort goes next.

In-store items by time since last sighting — the shelf tail

On-hire items by time since last verification — the long-hire tail

BUCKET	ITEMS ON HIRE	PRICED VALUE
0-30 days	775	\$417,936
31-60 days	658	\$452,665
61-90 days	370	\$372,212
91-180 days	590	\$458,312
Over 180 days	1,045	\$1,357,641
Never sighted	0	\$0

On-hire gear is not shelf-counted - verification comes from the double-scan return process and shutdown checks, so a long bucket here is a long hire, not a lost item. It is watched because long-idle gear is where shrinkage hides. Values from the pricing master; unpriced items excluded and disclosed, **never estimated**.

Ampol Stocktake Compliance

KEY • **COUNT DAILY** stock takes are done daily - no exceptions • **TWO SCANS TWO LOOKS** scanned and sighted, out and back • **P1 7-DAY** gas monitors, radios & batteries every 7 days

On hire - verified on return, not hunted on shelves

3,438 items are on hire holding **\$3,058,766** of priced value. On-hire gear is verified through the double-scan return process and shutdown checks - chasing it around site during a count would be friction for no assurance. **2 possible missed returns** (sighted in a store bay after their on-hire date) are flagged to resolve first, so hirers are never held for gear that is already home.

COMPANY	ITEMS ON HIRE	NOT VERIFIED 30D	PRICED VALUE
AMPOL	592	516	\$633,625
WOOD	572	496	\$498,000

Ampol Stocktake Compliance

KEY • **COUNT DAILY** stock takes are done daily - no exceptions • **TWO SCANS TWO LOOKS** scanned and sighted, out and back • **P1 7-DAY** gas monitors, radios & batteries every 7 days

The tool store has your back

TWO SCANS, TWO LOOKS

Every item is scanned **and** sighted going out, and scanned and sighted coming back. If it moved, it is on the record - that is your protection as much as ours.

COUNTED DAILY, ABOVE THE SOP

The SOP asks for a 30-day cycle. Coates runs gas monitors, radios and batteries on **7 days** and Milwaukee on **14** - an internal standard set above the contract.

NUMBERS YOU CAN CHALLENGE

Every score prints its own arithmetic. Values come from the pricing master; anything unpriced is excluded and disclosed, **never estimated**.

IDLE STOCK IS THE TARGET

Movement resets the clock, so the count cadence naturally hunts the gear that sits still - the gear that goes missing quietly.

LIFE SAVING RULE 5

Tools and Equipment (SEQ-GL-009): nothing damaged, defective or out of test date is ever reissued. Stock takes are done daily. No exceptions.

EASE OF DOING BUSINESS

One register, one cadence, one report - and a store team that resolves a query while you are still at the counter.

Meet the tool store team

The crew running your Ampol store - keeping the register true, the counts current and the gear ready. Something not right? Tell us and we'll sort it.
