

Coates | Ampol Tool Store

Executive Summary

Generated 2 Sep 2026 15:06 | Data as at SiteIQ pull 02 Sep 2026 18:30

The Coates Way | POWERED BY SITEIQ | Author: Andrew Fisher

The Ampol tool store is running the Coates Way. 1,500 tooling items issued since 01 Jan 2026 are on hire across 24 companies with \$525,700.50 of replacement value in the field (167 of them unpriced). 4,053 tooling items are ready on the shelf (4,722 register rows are Available for Hire in all; the other 669 are 348 Dräger gas monitors, 164 gas monitors, 136 radios, 21 lanyards, reported separately) and 70 items sit in the Repairs custody account (tagged, tracked, never reissued until right). Crews have run 90,602 transactions this year and 69% came back same-day — the double scan working exactly as designed. The quarterly recovery cycle keeps the fleet honest: gear not returned by quarter close is billable at replacement cost, and this report gives every company the list to beat before that happens.

SAME-DAY RETURNS

On hire excludes 853 register rows on hire since before 01 Jan 2026 (oldest 14 Feb 2023) - all of them 763 radios, 88 Dräger gas monitors, 2 gas monitors, chased by the Radio and Gas Monitor reports; no tooling item on hire pre-dates this year. Inside the 1,500: 13 in the Repairs custody account (internal) and 82 booked to shutdown / custody accounts of a company rather than to a person. Transactions YTD counts every movement in the export: 3,705 are custody movements (Dräger 2,121, Repairs 509 and company custody accounts) and 78,652 are radio / gas / lanyard family movements the on-hire pages leave out; 8,245 are customer tooling movements. Same-day returns are measured on all 90,602.

ON HIRE BY QUARTER ISSUED

QUARTER	ITEMS STILL ON HIRE
Q1 (Jan-Mar)	140
Q2 (Apr-Jun)	544
Q3 (Jul-Sep)	816
Q4 (Oct-Dec)	0 (quarter not started)

LEGACY ON HIRE - BEFORE 01 JAN 2026

853 register rows are still on hire from 2023-2025 issues (oldest 14 Feb 2023). They are not in the tooling recovery cycle above because they are 763 radios, 88 Drager gas monitors, 2 gas monitors - the Radio and Gas Monitor reports carry them. Shown here so the recovery story is complete.

COMPANY	LEGACY ITEMS	RADIOS	DRAGER GAS MONITORS	GAS MONITORS
Ampol	255	255	0	0
Wood	204	204	0	0
Contract Resources	130	130	0	0
Future Fuels	87	0	87	0
HIS	30	30	0	0
Manpower	21	21	0	0
Enermech	17	17	0	0
Saunders	16	16	0	0

WHAT IS OUT - CATEGORY SPLIT

Items on hire by description family (High Torque / Rigging / Electrical keyword match on the register description; General is everything else).

ON-HIRE AGEING PROFILE

How long the current on-hire items have been out - days since their on-hire date. The quarterly recovery cycle is what brings the long tail home.

OUR STANDARD

Life Saving Rule 5 - Tools and Equipment (SEQ-GL-009): nothing damaged, defective or out of test date is ever reissued. Every issue and every return runs through the double scan — Two scans. Two looks. One standard. | Nothing goes on the shelf unless it is ready for hire. | Right first time. Every item. Every time. Daily stocktakes keep eyes on the fleet: nothing in the store goes over 30 days without being scanned, and anything damaged is tagged Out of Service on the spot. We are here to help — if gear is finished with, hand it back to the tool store and it comes off your list the same day.

HONEST LIMITS

- Every figure is counted from the SiteIQ exports beside this report - never from a workbook tab or a hardcoded summary cell. On hire = register rows On Hire with a 2026 on-hire date, less radios, gas monitors, Drager equipment, lanyards and steel coil clamps (reported separately) and less the tool store's own holding accounts (T&I - Tool store, All-Around - Repairs, Bulk - Yard, Loading Bay - Out Of Service, Out Of - Calibration, Rigging & 240V - Out Of Tag Date).
- Company names are standardised (CALTEX and AMPOL REFINERIES (QLD) PTY LTD read as Ampol; CR as Contract Resources). FCCU and SATGAS/MOL accounts are project accounts of the same customer, kept separate because gear is routed by that split. Repairs is an internal custody account, never a company.
- Data as at: SiteIQ RENTAL_STOCK pull 02 Sep 2026 18:30; SiteIQ TRANSACTIONS pull 02 Sep 2026 18:30 (report period 01/01/2026 06:00:00 - 02/09/2026 05:59:59); SiteIQ STOCKTAKE pull 02 Sep 2026 18:29. Every figure is computed from these exports by this kit - the Excel workbook is not read for any printed number.
- Replacement value is the catalogue new-buy average (Avg Buy Price (New) in Ampol_ToolStore_Pricing.xlsx); where a description is listed more than once the first price is used. Unpriced items show a dash and are excluded from value totals - never estimated.
