Quarterly On-Hire Report - Q2 (Apr-Jun)

Generated 2 Sep 2026 15:06 | Data as at SiteIQ pull 02 Sep 2026 18:30

The Coates Way | POWERED BY SITEIQ | Author: Andrew Fisher

This is the Q2 (Apr-Jun) on-hire position for the Ampol tool store: 544 items issued in this window and still out, across 16 companies. Gear on hire in this window that has not come home is billable at replacement cost at quarter close, and gear no longer needed is removed from hire at the same point — so this list is the one to walk before the quarter ticks over. Everything here is easy to fix: bring it back to the counter, it is double-scanned off your name in seconds, and it disappears from this report the same day. We are not chasing blame — we are helping everyone finish the quarter clean.

INTERNAL CUSTODY - REPAIRS ACCOUNT (NOT A CUSTOMER)

Items booked to the Repairs custody account are inside the on-hire count above but are Coates' own workflow - tagged, tracked and never reissued until right. They are not chased with any company.

ACCOUNT	BARCODE	DESCRIPTION	ON HIRE SINCE	REPLACEMENT

OUR STANDARD

Life Saving Rule 5 - Tools and Equipment (SEQ-GL-009): nothing damaged, defective or out of test date is ever reissued. Every issue and every return runs through the double scan — Two scans. Two looks. One standard. | Nothing goes on the shelf unless it is ready for hire. | Right first time. Every item. Every time. Daily stocktakes keep eyes on the fleet: nothing in the store goes over 30 days without being scanned, and anything damaged is tagged Out of Service on the spot. We are here to help — if gear is finished with, hand it back to the tool store and it comes off your list the same day.

HONEST LIMITS

- Counts come straight from the SiteIQ RENTAL_STOCK register: items On Hire whose on-hire date falls in Q2 (Apr-Jun). Radios, gas monitors, Drager equipment, lanyards and steel coil clamps are excluded - they are reported separately. Items on hire since before 01 Jan 2026 are not in this list (see the Executive Summary).
- Company names are standardised (CALTEX and AMPOL REFINERIES (QLD) PTY LTD read as Ampol; CR as Contract Resources). FCCU and SATGAS/MOL accounts are project accounts of the same customer and are listed separately because gear is routed by that split.
- Descriptions use the corrected name from Tooling_Description_Mapping.xlsx where one exists for the barcode, or where every mapping row for that register description agrees on one corrected name; otherwise the register description.
- Data as at: SiteIQ RENTAL_STOCK pull 02 Sep 2026 18:30; SiteIQ TRANSACTIONS pull 02 Sep 2026 18:30 (report period 01/01/2026 06:00:00 - 02/09/2026 05:59:59); SiteIQ STOCKTAKE pull 02 Sep 2026 18:29. Every figure is computed from these exports by this kit - the Excel workbook is not read for any printed number.
- Replacement value is the catalogue new-buy average (Avg Buy Price (New) in Ampol_ToolStore_Pricing.xlsx); where a description is listed more than once the first price is used. Unpriced items show a dash and are excluded from value totals - never estimated.
