THE STORY. 905 register rows, 889 distinct barcodes, joined to SiteIQ at the pull: **746 found (84%)** - 301 on hire to customers across 14 companies, 432 in the store, 13 at repairs - and **143 not found, whereabouts unknown**. Test records: 0 of 905 rows.

Ampol Rigging & Lifting Register

AS AT 02 SEP 2026 18:30

The scorecard - the arithmetic behind the position

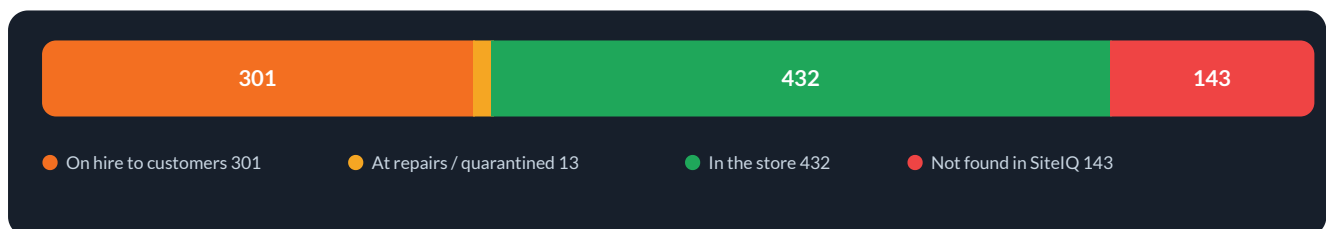

THE POSITION, IN FULL. One honest answer: is the Ampol rigging and height-safety fleet on the register and accounted for? The register carries **905 rows - 889 distinct barcodes** (1 blank, 14 barcodes repeated on 29 rows) - split **723 rigging & lifting** and **182 height safety / rescue**. Joined barcode-for-barcode to the SitelQ register as at **02 Sep 2026 18:30: 746 found (84%) - 301 on hire to customers** across 14 companies, 13 at repairs or quarantined, 432 in the store - and **143 not found in SitelQ - whereabouts unknown**. The test columns are still empty: **0 of 905** rows carry any test detail (page 6).

Share of the 889 distinct register barcodes the
SitelQ pull returns

- ✓ Found in SitelQ **84/100**
746 of 889 distinct register barcodes are returned by the SitelQ pull as at 02 Sep 2026 18:30; 143 are not - listed from page 8
- ✓ Test records filled in **0/100**
0 of 905 register rows have any of the eight test columns entered - see page 6

Where the barcodes are - every one of the 889, per the SitelQ pull

Ampol Rigging & Lifting Register

AS AT 02 SEP 2026 18:30

Where the rigging gear is - by company, A to Z

301 items are on hire to **14 customer companies** (91 hirer names) per the SiteIQ pull as at 02 Sep 2026 18:30.

Companies A to Z, each with its **longest-held item** named with barcode and hirer - because the oldest hire is always the first conversation. Project accounts are merged into their company (the SiteIQ account names sit under the company). A further **13** register items sit on repairs or quarantine custody lines - shown separately on page 5, never counted as customer hire.

Held = days from the SiteIQ on-hire date to the pull time, 02 Sep 2026 18:30. Hirer names are as SiteIQ records them, shared site accounts included. 191 of the 301 customer-hire items were issued after 29 Jun 2026, the newest date in the workbook's own locate sheet - which is why that sheet is no longer used for status. Repairs and quarantine custody lines are on page 5.

Ampol Rigging & Lifting Register

AS AT 02 SEP 2026 18:30

The longest-held customer hire, item by item - oldest first

The front of the queue: the 16 oldest of the 301 dated customer-hire items, each with its barcode, holder and SiteIQ on-hire date as at 02 Sep 2026 18:30. Work them top down - every return retires the oldest risk first.

Ampol Rigging & Lifting Register

AS AT 02 SEP 2026 18:30

Test status - what the register holds today, no varnish

Straight up: **not one of the eight test columns on the Master has been filled in** - 0 of 905 rows carry a test date, status, tag colour, tester, licence, certificate or comment. A certificate extract in the same workbook ('Extracted Register') carries **Next Insp Due 04/26 for 375 of the 889 register barcodes** (112 on hire per SiteIQ, 220 in the store, 43 not found in SiteIQ), not yet transferred to the Master. If 04/26 means April 2026, those items were due before this report - **status unconfirmed**. SiteIQ already carries a parking hirer, 'Rigging & 240v - Out of Tag Date', holding 1 register item (page 4).

TEST STATUS ON THE MASTER (AS RECORDED)	ROWS
(blank - not yet entered)	905

The certificate extract - 'Extracted Register' sheet, same workbook, not yet on the Master

WHAT THE EXTRACT HOLDS	COUNT
Rows in the extract / distinct barcodes	663 / 511
Of which on the register (Master barcodes)	375 of 889
→ on hire per SiteIQ (customers + custody lines)	112
→ in the store per SiteIQ	220
→ not found in SiteIQ	43
Next Insp Due values carried	04/26 on 663 rows
Parse Status (the extract's own column)	Parsed 490 · No slash 136 · Check 33 · Parsed - inferred missing slash 4

Fill-in progress by column - how far each test column has got

Last Test Date		0 of 905
Next Test Due		0 of 905
Test Status		0 of 905
Test Tag Colour		0 of 905
Tested By		0 of 905
Tester Licence No		0 of 905
Certificate No		0 of 905
Inspection Comments		0 of 905

A dash anywhere in this report means the register cell is blank - the test details for that item are still to be entered. Nothing is assumed, estimated or copied in from the extract; the extract is disclosed here, not treated as the record.

Ampol Rigging & Lifting Register

AS AT 02 SEP 2026 18:30

Register identity - what the barcodes themselves say

The register is **905 rows** but **889 distinct barcodes**: **1** row with no barcode (Flat Web Sling - 4T x 4m (Rigging & Lifting)), **14** barcodes repeated across **29** rows, and **22** typed in lower case. For the SiteIQ join and on every page here, barcodes are upper-cased and de-duplicated (first Master row wins) - the fixes belong in the Master. Serial numbers: **378** rows carry one, **345** distinct.

Duplicated barcodes - 14 barcodes on 29 rows

BARCODE	ITEM	ROWS	WHERE SITEIQ HAS IT
WG0474/002	Eyebolt - 1.6T	3	In the store
AMP005/079	Round Sling - 2T x 1M	2	On hire - Piping Solutions - Matthew - Walduck
AMP026/055	Bow Shackle - 3.2T	2	On hire - Ampol - Jannie - Cloete
AMP115/002	Twin Lanyard - Scaffold Hook	2	In the store
AMP115/006	Twin Lanyard - Scaffold Hook	2	Not found in SiteIQ
AMP171/007	Round Sling - 3T x 3M	2	In the store
AMP171/008	Round Sling - 3T x 3M	2	On hire - Wood - Threyne - Anderson-Thompson
AMP179/006	Inertia Reel - 25M	2	In the store
CTX007/007	Retrieval Inertia Reel	2	In the store
CTX007/009	Retrieval Inertia Reel	2	In the store
CTX054/003	Chain Block - 1T x 6M	2	In the store
CTX67312/001	Recovery Spreader Bar	2	In the store
CTX71321/003	Wire Rope Sling - 2.4T x 16mm	2	On hire - Contract Resources - Logan - Ferguson-Rudolf-Shutdown
CTX71321/004	Wire Rope Sling - 2.4T x 16mm	2	On hire - Contract Resources - Logan - Ferguson-Rudolf-Shutdown

Category detail - rows, distinct barcodes and the SiteIQ split

CATEGORY	ROWS	BARCODES	ON HIRE	REPAIRS	IN STORE	NOT FOUND	LONGEST-HELD CUSTOMER ITEM	HELD
Rigging & Lifting	723	712	230	10	354	118	Round Sling - 1T x 0.5M AMP017/106 - Contract Resources - John - Pattel	240d
Height Safety / Rescue	182	177	71	3	78	25	Inertia Reel - 25M AMP179/008 - HIS - Igor - Kozlov	217d

Counts are per distinct barcode after upper-casing; a duplicated barcode is one item here whatever the row count says. On hire = customer hire only.

Ampol Rigging & Lifting Register

AS AT 02 SEP 2026 18:30

Not found in SiteIQ - whereabouts unknown (1 of 4)

143 register barcodes are not returned by the SiteIQ pull as at 02 Sep 2026 18:30 - on the register, but nowhere in the live export under that barcode (exact match tried first, then upper-cased and trimmed). Split Rigging & Lifting 118 · Height Safety / Rescue 25. They are **not accounted for** and are not counted as in the store. The last thing the workbook's own locate sheet (a SiteIQ snapshot dated to 29 Jun 2026) said about them: Available for Hire 92 · On Hire 51. The 51 last seen on hire carry that hirer's name below - the first person to ask.

Sorted last-seen-on-hire first (by hirer), then by item. 'Jun snapshot' is the workbook's To Help Locate sheet, dated to 29 Jun 2026 - not the live position. A barcode here may have been re-tagged, sold, scrapped or mis-typed on the register; until SiteIQ returns it, whereabouts unknown.

Ampol Rigging & Lifting Register

AS AT 02 SEP 2026 18:30

Possibly rigging gear not on the register - keyword match, verify - ranked by count (1 of 2)

132 live SiteIQ lines (43 descriptions, 33 on hire) carry a rigging or height-safety word in their description but their barcode is not on the register. **This is a keyword match, not a finding** - each line needs a look before it is added. Rule applied: ITEM_DESCRIPTION contains sling, shackle, chain block, lever block or hoist, cumalong, tirfor, beam / girder / plate clamp, eyebolt, spreader bar, swivel, lifting bag, bucket lifter, winch, harness, lanyard, inertia reel, rope grab, anchor, Gotcha, rescue, davit or tripod - excluding flange spreaders, hook wrenches, dumpy-level tripods and cutting trolleys.

Ampol Rigging & Lifting Register

AS AT 02 SEP 2026 18:30

The year in movements - register gear through the counter, week by week

THE LOG, WEEK BY WEEK. The 746 register barcodes SiteIQ returns moved **1,728 times out** and **1,423 back** across 36 weeks, from the week beginning 29 Dec 2025 to the pull at 02 Sep 2026 18:30; the busiest week for issues began **08 Jun** with 113. Net out is the week's issues less its returns - above zero, gear building up on site; below, gear coming home. The current week (31 Aug) is partial - to the pull.

Issues, returns and net out by week - every movement of a register barcode; * marks the partial week

Who holds the register gear - top 10, ranked by items on hire at the pull

RANK	HIRER	COMPANY	ITEMS	OLDEST (DAYS)
1	Roth - Kheng	Contract Resources	22	22
2	FCCU - 2026 (SFI)	Ampol	18	55
3	Cass - Doxford	HIS	16	78
4	John - Pattel	Contract Resources	13	240
5	Sean - Cotton	Wood	12	204
6	Atlas Chains - Offsite Repairs	Repairs custody line - not customer hire	10	132
7	Wynnum - Gardens	Ampol	9	67
8	Adrian - Purdue	Contract Resources	9	55
9	Threyne - Anderson-Thompson	Wood	9	49
10	Logan - Ferguson-Rudolf-Shutdown	Contract Resources	8	5

So what: 46 of the 94 holders carry 80% of the 314 register items out, and the ten names above hold 40% - the net-out line says which weeks to walk that list.

Counted from TRANSACTIONS (sheet CUSTOMER_CONTRACTOR_EQUIP, report period 01 Jan 2026 06:00 to 02 Sep 2026 05:59) for the register barcodes SiteIQ returns; holders from RENTAL_STOCK at the pull, oldest = days from the on-hire date. Rules: short hire = closed inside 6 minutes; mass draw = one person drawing 15 or more items inside one hour; product key = the description with its size and serial tail removed.

Ampol Rigging & Lifting Register

AS AT 02 SEP 2026 18:30

How the rigging fleet is run

LIVE POSITION, NOT A SNAPSHOT

Status, holder, on-hire date and days held come from the SiteIQ RENTAL_STOCK pull requested 02 Sep 2026 18:30, joined barcode-for-barcode to the register. The workbook decides what is on the register; SiteIQ decides where it is.

UNKNOWN STAYS UNKNOWN

143 register barcodes SiteIQ does not return are printed as not found - whereabouts unknown - never folded into 'in the store'. Blank test cells print as dashes; nothing is assumed, estimated or copied in.

LONGEST HELD, FIRST CHASED

Customer hire is worked oldest first by company and hirer. Repairs, off-site, out-of-tag and out-of-service custody lines are kept separate, so a quarantined item never reads as a customer's.

IDENTITY HAS GAPS TOO

905 rows, 889 distinct barcodes: 1 blank, 14 barcodes repeated on 29 rows, 22 lower-case. The join upper-cases and de-duplicates; the fixes belong in the Master. Rigging gear is Life Saving Rule 5 territory (SEQ-GL-009) - the record has to be real.

Names as shown: the site is Ampol. SiteIQ and the register still carry the site's former name on 0 register descriptions and 3,136 live-register lines; every one is shown here under the current name. Barcodes are identifiers and never change. Companies are one customer one name (the refinery legal name and the former site account both read Ampol; project accounts roll up to their parent). Each run writes its figures to History\report_history.json keyed on the pull day; the next run reads them back for the movement notes. Trend page: appears once seven days are on record (1 today). The transaction log (TRANSACTIONS, sheet CUSTOMER_CONTRACTOR_EQUIP, report period 01 Jan 2026 06:00 to 02 Sep 2026 05:59) feeds page 14, the year in movements; its own check for the register gear: 22 hires closed inside 6 minutes, 0 on hire with no movement since the log began, 0 issued before it opened.

THE COATES WAY • OUR OPERATING MODEL, OUR STANDARD, OUR WAY

Australia's most trusted equipment partner - delivering Best Service & Value.

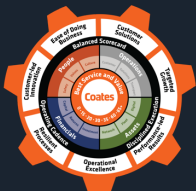

PURPOSE Supporting Australia's growth with leading equipment solutions.

Care Deeply (safety & wellbeing first, always) • **Customer Focused** (listen, anticipate, exceed expectations) • **Be Our Best** (accountability, learning, determination) • **One Team** (collaborative, trusted, inclusive) • **Competitive Spirit** (set stretch goals, be THE best)

SCORECARD Green - on track • Amber - at risk • Red - action needed: a documented root cause, corrective actions, an owner and a deadline.

WHERE THIS REPORT SITS Operational Excellence, Resilient Processes, Safety First, Reduce Friction • every lifting item is accounted for or hunted; a barcode SiteIQ cannot see is a friction point flagged, not accepted

Every figure in this report is counted from the SiteIQ exports named on its data page - nothing is estimated, weighted or typed in. Wording: The Coates Way, branch edition, July 2026.
