Cement Australia K2 Shutdown 2026 - Gladstone

Generated: **05 Aug 2026 12:50** | Data as at: **05 Aug 2026 12:08** (RENTAL_STOCK export file time) | Author: **Andrew Fisher**

KEY • **ELECTRICAL / RIGGING** test & tag current · tag colour **BLUE** • **LOGBOOK** daily pre-start & logbook entry • **RETURN DAILY** back to the tool store every shift

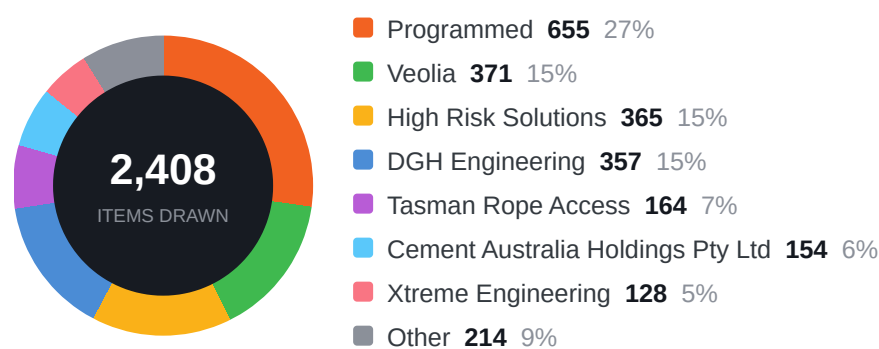

PAGE 1 OF 6

The tool store is not just tools - it keeps the whole site's consumables flowing. So far this shutdown, crews have made **539 consumable draws** (2,408 items issued) across **16 companies** and **181 people**, covering 52 different consumable lines. Every draw goes through the counter and the double scan - two scans, two looks, one standard - so every number here is a scanned fact. A draw counts as ONE transaction no matter the quantity taken, and consumables carry no charges on this report - quantities only.

At a glance

Who drew what - by person

Every draw is double-scanned to a named person at the counter - the store always knows who has what. The busiest drawers first.

PERSON	COMPANY	DRAWS	ITEMS	MOST-DRAWN ITEM
Lexie Hare	DGH Engineering	15	145	SAFETY TAG - PERSONAL ISOLATION - K2/26
Henri Kelt	Programmed	13	24	OVERALL - TYVEK CHEMICAL RESISTANT HOODE

Shelf assurance - stocked before crews notice

49 consumable lines are stocked on site right now, 0 of them under min/max management. 0 lines at or below minimum are flagged for restock - watched every day as part of the daily stocktake, so the shelf is ready before anyone has to ask. Nothing goes on the shelf unless it is ready for use. Life Saving Rules (SEQ-GL-009) apply - Rule 5, Tools and Equipment: nothing damaged or out of date is ever issued, consumables included. Every chemical line on this shelf is covered by the Coates SDS register - 11 substances, each with a current Safety Data Sheet and a QR link at the shelf (full detail in the Safety & High-Care Assurance pack).

Bought-in & charged on

Items purchased for the site and charged on - logged in the Coates charge register, separate from the store's own shelf stock above. These carry recorded charge amounts; the shelf itself stays quantities-only.

DATE	CHARGE	WHAT	COMPANY	AMOUNT	STATUS
22 Jul	Consumables sold	Ledlenser MH10 600lm Rechargeable Headlamp	Cement Australia	\$1,090.50	Approved
28 Jul	Consumables sold	Paramount Safety Bollard Stem	Cement Australia	\$511.20	Approved
28 Jul	Consumables sold	Paramount Bollard Bases 6KG	Cement Australia	\$389.76	Approved
28 Jul	Consumables sold	Squids 3155 Elastic Tool Lanyard and Clamp	Cement Australia	\$306.00	Approved

Honest limits: A draw counts as one transaction regardless of quantity taken. Figures come from the SiteIQ SALES_STOCK export as at the data-as-at stamp. No consumables price feed is loaded - quantities only, with one exception: the bought-in & charged-on section shows recorded charge amounts from the Coates charge register.

All returns go through the Coates tool store, handed to the stores team and double-scanned. Nothing is returned unless it is scanned.

Care Deeply · Customer Focused · Be Our Best · One Team · Competitive Spirit
