Cement Australia K2 Shutdown 2026 - Gladstone

Generated: **05 Aug 2026 14:41** | Data as at: **05 Aug 2026 12:08** (RENTAL\_STOCK export file time) | Author: **Andrew Fisher**

KEY • **ELECTRICAL / RIGGING** test & tag current · tag colour **BLUE** • **LOGBOOK** daily pre-start & logbook entry • **RETURN DAILY** back to the tool store every shift

PAGE 1 OF 12

This one is for the Cement Australia store team - your consumables shelf as the tool store sees it, straight from scanned draws and the live SiteIQ stock position. **49 lines are stocked** on the shelf right now, 0 of them under min/max management. Crews have made **539 draws** (2408 items issued) this shutdown - every one through the counter and the double scan. **11 lines need attention**: 11 out, 0 running at or under minimum - the reorder list below runs worst-first so the top of the list is today's order.

|                                                                                                                                            |                                                                                                                                                 |                                                                                                                                                                         |                                                                                                                                                      |                                           |                                         |

'To get back to min' is simple arithmetic (minimum minus on hand) - the call on how much to order is yours. A dash in SiteIQ Reorder Qty means no reorder quantity is set on that line in SiteIQ.

Shelf v minimum, drawn - how far under the line each one sits.

Meet the tool store team

The crew running your K2 tool store - getting the right gear to the right crew, keeping it looked after and ready, and making sure everything that leaves the store is right. Day and night, so the shutdown keeps moving. Something not on hand or not right? Tell us and we'll sort it.

AF

**Andrew Fisher**  
**SHUTDOWN MANAGER**  
andrew.fisher  
@coates.com.au  
Oversees the whole store and the whole shutdown -  
anything at all, start here

Expertise, solutions and help at the counter

✓ The right gear to the right crew

✓ Looked after, maintained & ready

✓ Checked and right - every time

**Honest limits:** Quantities only - no consumables pricing is loaded, so no dollar values appear. Shelf position and usage are from the SALES\_STOCK export at the data-as-at stamp; draws are scanned facts. 'To get back to min' is minimum minus on hand, never a forecast. Lines with no minimum set can't be flagged LOW - set minimums in SiteIQ to put them under management.

All returns go through the Coates tool store, handed to the stores team and double-scanned. Nothing is returned unless it is scanned.

Care Deeply · Customer Focused · Be Our Best · One Team · Competitive Spirit
