PAGE 1 OF 41

**SHUTDOWN DAY 9 OF 23 | THE SHUTDOWN SCORECARD.** One page, one honest answer: how healthy is the K2 toolstore operation today? Every score below is arithmetic on real SiteIQ events - the formula sits beside each number, so the score can be challenged, checked and trusted.

Shutdown health score

- ✓ Safety **0/100**  
100 less 25 per gas monitor out overnight - bump testing is daily (14 out today)
- ✓ Compliance **80/100**  
stocktake coverage - share of store items physically sighted inside the cycle
- ✓ Returns **79/100**  
half same-day rate, half back-inside-3-days rate, across 513 completed hire cycles
- ✓ Tool availability **76/100**  
100 less 6 per stocked line (fleet of 3+) with every unit out (4 today)
- ✓ Outstanding **51/100**  
share of on-hire gear inside the 3-day bar (277 of 561 items 4d+)
- ✓ Damages **85/100**  
100 less 15 per damage charge this shut (1 logged)

## The shutdown at a glance - where we are

Phase bands with the crew curve (rostered hours from the costing model) and the gear-on-hire curve (rebuilt from every SiteIQ transaction). The dashed line is today - 28 Jul 2026.

Gear on hire - the whole shutdown

People served per day

Counted from SiteIQ transaction stamps (16 Jul - 27 Jul), site plant pool excluded. 'Gear on hire' counts every open transaction; it sits -90 against the live register's 561 - movements SiteIQ recorded without a return stamp yet.

Risk dashboard - high-care gear, named

Gas monitors come back **daily** for bump testing, charging and inspection - one out overnight is a safety-critical follow-up, not a hire matter. Radios and Milwaukee battery gear carry the same daily-return standard. Names are listed so the right person gets the right conversation.

✔ **Top performer: Cleanaway** - 52/100. Score = return performance (40) + timeliness (25, less 5 per item at 4+ days) + damage record (20, less 10 per damage charge) + hold time (15, full marks at a day-and-back). Arithmetic on real events - nothing subjective.

Store productivity - the counter story

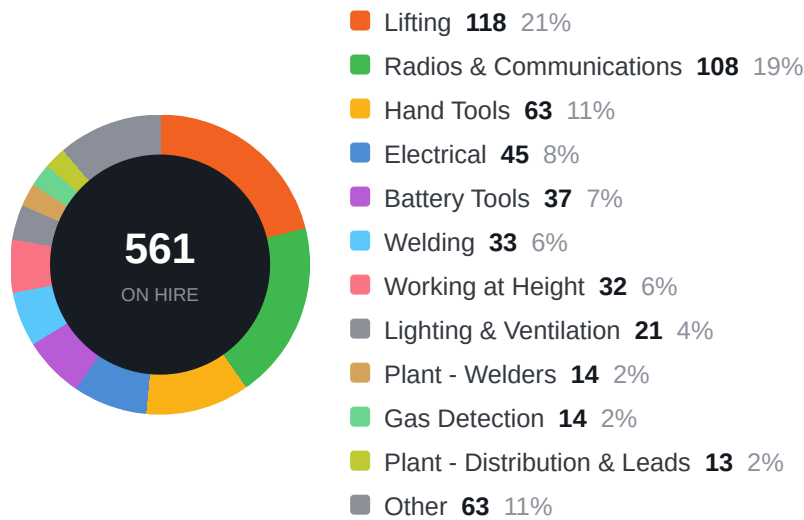

Peak times - when the counter runs hottest

SiteIQ stamps every issue and return to the minute - the grid shows when the counter runs hottest, so crews can plan around the 05:00 rush. SiteIQ does not record queue wait times; peak-hour load is the honest pressure measure.

Utilisation and availability

Working hardest - consumables

| SKU                                        | QTY TAKEN |
|--------------------------------------------|-----------|
| RESPIRATOR - P2V FLATFOLD CARBON - K2/26   | 60        |
| SAFETY TAG - INFORMATION - K2/26           | 50        |
| SAFETY TAG - PERSONAL ISOLATION - K2/26    | 45        |
| ROPE - SISAL 6MM DIAMETER - K2/26          | 38        |
| ICE BLOCK - ELECTROLYTE MIXED PK15 - K2/26 | 30        |

Quantities only - no consumables price feed is loaded. Utilisation evidence sizes the next order.

Site plant - utilisation and idle value

66 of 157 site plant items in use (42% true utilisation). Idle-on-charge plant is worth \$2,806.52 per day - the off-hire conversation list. Barriers, chutes and hoppers (176 items) stay on site for the duration by design. The not-in-use fleet doubles as the Coates mechanic's preventative maintenance window - gear is serviced while it sits, not after it fails.

Charges captured this shutdown

Logged in the Coates charge register - damage, consumables sold, fuel and transport - each with its own advice document and evidence. Firm (approved) charges total **\$49,031.46** across 7 charge(s). These are register records; once a charge is invoiced through SiteIQ, the invoiced figure is the billing truth - the two are never added together.

The standards behind the numbers

**Double scan - two scans, two looks, one standard.** Every issue and every return goes through the tool store: scan, look. Scan, look. The scan is not complete until we have looked - so the record above is evidence, not estimate. Right first time. Every item. Every time.

**Checking and stocktakes.** Stock takes are done daily - no exceptions - with nothing in the store going more than 30 days unscanned. 3011 of 3767 items physically verified in the last 3 days (80%) by 4 counters. Discrepancies are addressed on the spot, and the stock take doubles as our on-hire verification - anything physically in the store still showing as on hire gets corrected the same day. It is not just a counting exercise; it is another checkpoint for catching problems before a hirer does.

**Safety-critical assurance.** 72 radio handsets (70 billable, 2 spares held) and the 30-unit gas monitor fleet are pooled, charged and maintained through the store - every gas monitor bump tested and fully charged before it is issued, and every battery item issued on a full charge, never a partial. Nothing leaves the store that we would not use ourselves. Life Saving Rules (SEQ-GL-009) apply: Rule 5 - Tools and Equipment - damaged or defective gear is tagged out and removed from service, never reissued.

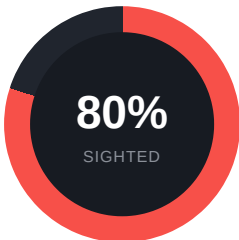

**Pride in what we do.** Best Service & Value is the objective; the disciplines above are how the K2 tool store delivers it, every shift.

## Meet the tool store team

The crew running your K2 tool store - getting the right gear to the right crew, keeping it looked after and ready, and making sure everything that leaves the store is right. Day and night, so the shutdown keeps moving. Something not on hand or not right? Tell us and we'll sort it.

✓ The right gear to the right crew

✓ Looked after, maintained & ready

✓ Checked and right - every time

**Honest limits:** Forecast and actual figures come from the K2 workbook Daily Tracking (read-only). Counts come from SiteIQ exports as at the data-as-at stamp; a consumables draw counts as one transaction regardless of quantity. Unpriced items are excluded from value figures, never estimated. Radio billing: 70 of 72 handsets at \$12.81/day from 17 Jul 2026, 2 disclosed unbilled spares. Gas billing: 30-unit fleet at \$29.75/day from 24 Jul 2026 to the forecast end, on hire or not. This pack is a point-in-time snapshot. Movement detail now lives on the trend and yesterday pages, computed from SiteIQ's own transaction stamps.

All returns go through the Coates tool store, handed to the stores team and double-scanned. Nothing is returned unless it is scanned.

**Care Deeply · Customer Focused · Be Our Best · One Team · Competitive Spirit**
