561 items still out • 16 companies • demob in 14 days - if it's not in use, bring it home

The job is winding down, and the next few days are about one thing: getting every bit of gear home, checked and accounted for. Nothing in this pack is an accusation - it is a checklist, so demob day is boring in the best possible way. Every return takes seconds at the tool store, is double-scanned straight off your record, and gets checked by Coates on the spot - gear you send back today is gear you are not answering for later. 561 items are still out across 16 companies and 90 people; the lists below show exactly who has what, so supervisors can walk the crib room, not the whole site.

Long days out usually just means the gear is working hard - a quick check-in confirms it is still needed or sends it home. Either answer is a good answer.

Line-item detail per company is in the company on-hire reports - hand each person their own list.

Why this works - the process behind a clean demob

Double scan - two scans, two looks, one standard. Every return is scanned twice at the counter, looked at both times, and comes straight off the company's record - no paperwork, no disputes, done in seconds.

We check the gear itself, not just the paperwork. Every returned item is looked over by Coates as it lands: complete, clean, working. Nothing goes back on the shelf unless it is ready for hire - clean, compliant, in date, not damaged. Harnesses and slings get extra care on inspection - safety-critical gear is checked thoroughly, never glanced at. Anything damaged or defective is tagged out through the Out of Service process on the spot - Life Saving Rule 5, Tools and Equipment (SEQ-GL-009) - so nothing dodgy goes back on a shelf or out to the next job.

Stocktakes back it up. 3,011 of 3,767 tool store items physically verified in the last 3 days (80%) by 4 counters - so when the final reconciliation runs, it is confirming what we already know.

The ask. If it's not in a hand, bring it to the tool store today. Care Deeply, One Team - let's land this shutdown with a zero-loss sheet everyone can be proud of.

Meet the tool store team

The crew running your K2 tool store - getting the right gear to the right crew, keeping it looked after and ready, and making sure everything that leaves the store is right. Day and night, so the shutdown keeps moving. Something not on hand or not right? Tell us and we'll sort it.

✓ The right gear to the right crew

✓ Looked after, maintained & ready

✓ Checked and right - every time

Honest limits: This pack reflects SiteIQ as at the data-as-at stamp - a point-in-time snapshot; anything returned after the extract is already off the list. Days out counts calendar days since the item went on hire. No charges appear here - this pack exists purely to make demob clean.

All returns go through the Coates tool store, handed to the stores team and double-scanned. Nothing is returned unless it is scanned.

Care Deeply · Customer Focused · Be Our Best · One Team · Competitive Spirit
