KEY • **ON HIRE** tooling issued this year and still out at the pull • **REPLACEMENT** catalogue new-buy average; a dash is unpriced, never estimated • **SIGNALS** buy, right-size and test-date sightings, each with its evidence

RED

507 of the 1,500 tooling items on hire (2026) have been out more than 90 days (33.8%) - above the 25% red line.

THE RULE
Share of tooling items on hire (2026) out more than 90 days: Green under 10%, Amber from 10%, Red from 25% (default line - set in CONFIG).

OWNER
Andrew Fisher, Shutdown Manager

NEXT ACTION AND BY WHEN
Over-90-day list to each company's supervisor at the quarter-close run; returns or rescans reported on the next report - by 09 Sep 2026.

THE POSITION. The Ampol tool store position at the SiteIQ pull of 02 Sep 2026 18:30: 1,500 tooling items issued since 01 Jan 2026 are on hire. The tiles carry the figures; the quarterly recovery by company, the signals and the data page follow on the pages after.

The Ampol tool store is running the Coates Way: every issue and every return is double-scanned, and the quarterly recovery cycle keeps the fleet honest - gear not returned by quarter close is billable at replacement cost, and this report gives every company the list to beat before that happens.

Since the last pull: No earlier register pull is saved in Data\previous yet - movement pull against pull starts with the next pull (button 28 parks the old export automatically). In the 24 hours before the pull (01 Sep 2026 18:30 to 02 Sep 2026 18:30): **0** tooling items issued, **11** returned.

Available for hire counts tooling only: 4,722 register rows are Available for Hire in all; the other 669 are 348 Dräger gas monitors, 164 gas monitors, 136 radios, 21 lanyards, reported separately. On hire excludes 853 register rows on hire since before 01 Jan 2026 (oldest 14 Feb 2023) - all of them 763 radios, 88 Dräger gas monitors, 2 gas monitors, chased by the Radio and Gas Monitor reports; no tooling item on hire pre-dates this year. Inside the 1,500: 13 in the Repairs custody account (internal) and 82 booked to shutdown / custody accounts of a company rather than to a person. Transactions YTD counts every movement in the export: 3,705 are custody movements (Dräger 2,121, Repairs 509 and company custody accounts) and 78,652 are radio / gas / lanyard family movements the on-hire pages leave out; 8,245 are customer tooling movements. Same-day returns are measured on all 90,602.

On hire by quarter issued

QUARTER	ITEMS STILL ON HIRE
Q1 (Jan-Mar)	140
Q2 (Apr-Jun)	544
Q3 (Jul-Sep)	816 (September partial)
Q4 (Oct-Dec)	0 (quarter not started)
Total	1,500

Quarterly recovery summary, by company A to Z

20 companies A to Z plus the Repairs custody account on its own line; the TOTAL ties to the 1,500 on hire and \$525,700.50 above. Values are replacement (catalogue new-buy average); a dash means nothing priced in that cell. Project accounts (FCCU, SATGAS/MOL) roll into their company; the Tooling On-Hire Report shows the account against each hirer.

Total replacement value by company, in \$'000 - ranked by replacement value, top 12 of 20 companies; the table below is A to Z.

COMPANY	1ST QTR ITEMS	1ST QTR VALUE	2ND QTR ITEMS	2ND QTR VALUE	3RD QTR ITEMS	3RD QTR VALUE	4TH QTR ITEMS	4TH QTR VALUE	TOTAL ITEMS	TOTAL VALUE	PRICED / UNPRICED

Legacy on hire - before 01 Jan 2026 (ranked by legacy items - top 8 of 37 companies)

853 register rows are still on hire from 2023-2025 issues (oldest 14 Feb 2023). They are not in the tooling recovery cycle above because they are 763 radios, 88 Dräger gas monitors, 2 gas monitors - the Radio and Gas Monitor reports carry them. Shown here so the recovery story is complete; the full A-to-Z list by company is in the Tooling On-Hire Report.

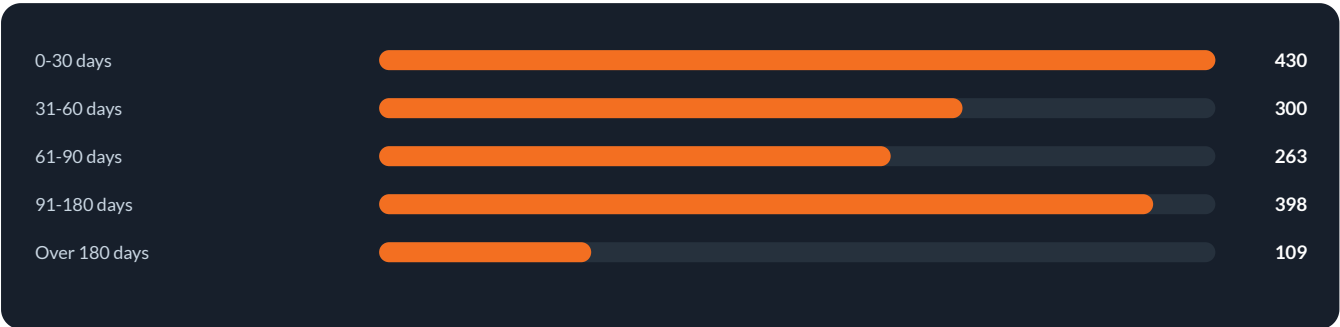

COMPANY	LEGACY ITEMS	RADIOS	DRÄGER GAS MONITORS	GAS MONITORS
Ampol	255	255	0	0
Wood	204	204	0	0
Contract Resources	130	130	0	0
Future Fuels	87	0	87	0
HIS	30	30	0	0
Manpower	21	21	0	0
Enermech	17	17	0	0
Saunders	16	16	0	0

What is out - category split

High Torque		29
Rigging		227
Electrical		81
General		1163

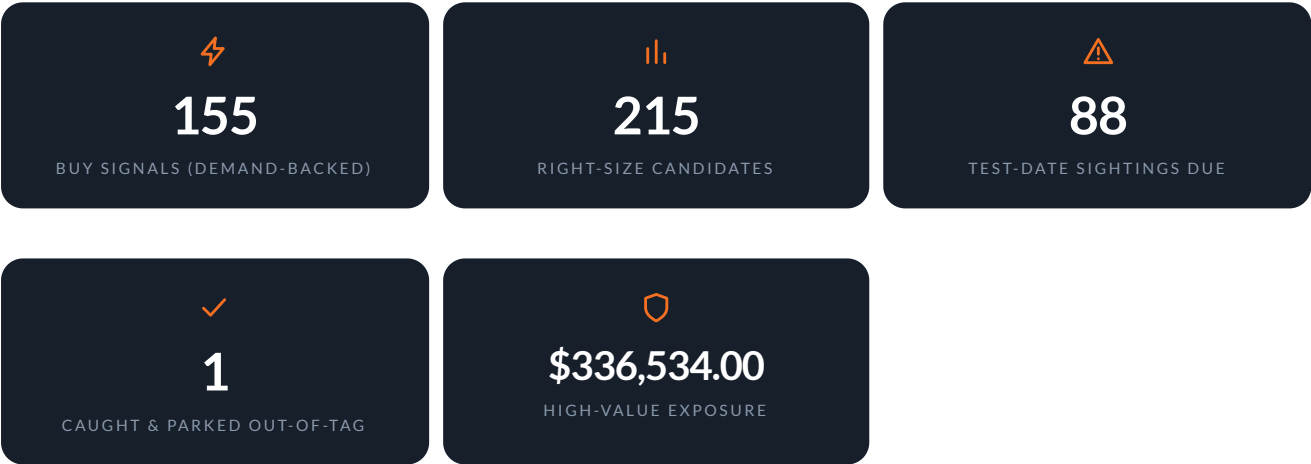

Items on hire by description family (High Torque / Rigging / Electrical keyword match on the register description; General is everything else).

On-hire ageing profile

How long the current on-hire items have been out - days since their on-hire date. The quarterly recovery cycle is what brings the long tail home.

Signals - buy, right-size and compliance

Detail sits in the companion reports: the Tooling On-Hire Report (every company, hirer and item, A to Z), the Quarterly On-Hire charge reports, Utilisation & What-To-Buy, and Compliance & Trends - each one client-ready, each one emailable from this kit.

Data and method

Honest limits

- Every figure is counted from the SiteIQ exports beside this report - never from a workbook tab or a hardcoded summary cell. On hire = register rows On Hire with a 2026 on-hire date, less radios, gas monitors, Dräger equipment, lanyards and steel coil clamps (reported separately) and less the tool store's own holding accounts (T&I - Tool store, All-Around - Repairs, Bulk - Yard, Loading Bay - Out Of Service, Out Of - Calibration, Rigging & 240V - Out Of Tag Date).
- Company names follow the suite's one naming rule: the site's former-name account and the refinery legal name both read Ampol; CR reads Contract Resources; FCCU and SATGAS/MOL project accounts roll up to their company (the Tooling On-Hire Report shows the account against each hirer). Repairs is an internal custody account, never a company.
- Three things to do today are drawn from the same on-hire list: the company holding the most items over 90 days, the oldest item out, and the unpriced items (or the second-largest over-90 holder when everything is priced). Since the last pull compares the register with the newest earlier export parked in Data\previous, and the 24 hours before the pull are counted from the TRANSACTIONS export - both for this report's population (tooling items on the SiteIQ register - radios, gas monitors, Dräger equipment, lanyards and steel coil clamps are excluded, and so are the tool store's holding accounts and the Company Repairs account).
- Trend page: appears once seven days are on record (1 today).
- Data as at: SiteIQ RENTAL_STOCK pull 02 Sep 2026 18:30; SiteIQ TRANSACTIONS pull 02 Sep 2026 18:30 (report period 01/01/2026 06:00:00 - 02/09/2026 05:59:59); SiteIQ STOCKTAKE pull 02 Sep 2026 18:29. Every figure is computed from these exports by this kit - the Excel workbook is not read for any printed number.
- Replacement value is the catalogue new-buy average (Avg Buy Price (New) in Ampol_ToolStore_Pricing.xlsx); where a description is listed more than once the first price is used. Unpriced items show a dash and are excluded from value totals - never estimated.

Our standard, honest limits and how to read this report

OUR STANDARD

Life Saving Rule 5 - Tools and Equipment (SEQ-GL-009): nothing damaged, defective or out of test date is ever reissued. Every issue and every return runs through the double scan - Two scans. Two looks. One standard. | Nothing goes on the shelf unless it is ready for hire. | Right first time. Every item. Every time. Daily stocktakes keep eyes on the fleet: nothing in the store goes over 30 days without being scanned, and anything damaged is tagged Out of Service on the spot. We are here to help - if gear is finished with, hand it back to the tool store and it comes off your list the same day.

HONEST LIMITS

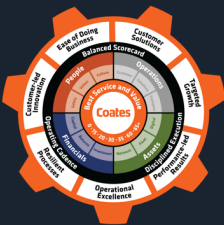

Every figure on these pages is counted by this kit from the SiteIQ exports named under Data and method - never from a workbook tab or a typed-in summary. Unpriced items show a dash and never enter a total. Where a rule or a limit matters, it is written out there in plain words.

NAMES AS SHOWN

The site is Ampol on every page: where SiteIQ still carries the former name it is shown under the current one, and the Tooling On-Hire Report's data page says how many lines do. One customer, one name: project accounts roll up to their company and the SiteIQ account is shown against the hirer. Hirer names are as SiteIQ records them.

HOW TO READ THIS

The tiles are the position; the tables beneath carry the same figures by quarter and by company, A to Z. A ranked table says so in its heading. The detail sits in the companion reports named on the last page.

THE COATES WAY
Australia’s most trusted equipment partner - delivering Best Service & Value.
Care Deeply · Customer Focused · Be Our Best · One Team · Competitive Spirit
Every figure in this report is counted from the SiteIQ exports named on its data page. Nothing is estimated, weighted or typed in.
